PRICE FIVE CENTS

OCEAN DIRIGIBLE FOLLOWS AZORES ROUTE FRENCH SUBMARINE AND CREW LOST

GRAIN ASSURED FOR ELEVATOR, STATES MOONEY

President of Panama Pacific Elevator Arrives and Says That Five Cars Left Prairies Yesterday for Official Test Here and That Fifty Cars Will Follow; After That Grain Will Move in Increasing Quantity.

Grain is moving to Victoria. The first shipment ever consigned to an elevator at this port was loaded yesterday on C.N.R. lines and will arrive in a few days' time. The shipment comprises five cars of grain, destined for the official test of the elevator, it was stated by J. A. Mooney, president of the Panama Pacific Grain Terminal Limited, to The Times this morning. Mr. Mooney arrived in the city today from Regina.

MAY RESIGN HIS DIPLOMATIC POST

ALANSON B. HOUGHTON
United States Ambassador to Great Britain.

The five test cars will be followed by fifty cars, permits for which were issued by the C.N.R. on Tuesday last. After that, continued Mr. Mooney, the grain will move here in increasing quantities.

WILL HANDLE GOOD VOLUME
Most of the shareholders of the company are from northern points in the prairies, and will not start their active shipping until relatively late in the season. Despite this fact the elevator expects to handle a considerable volume of grain this year, stated the president.

Mr. Mooney spent the morning going over the new elevator at Ogden Point, and received an informal call from Mayor J. C. Pendray and Alderman H. O. Littlefield, chairman of the industrial committee, who told Mr. Mooney that every assistance that the city could give would be at the disposal of the company in ensuring a successful start for the operation of the elevator.

SHOW CITY OFFICIALS PLANS
Mr. Mooney thanked the city officials for the offer and arranged to meet them at the City Hall this afternoon, where a number of minor points were discussed. The city might be able to help in a number of ways, stated Mr. Mooney, who laid his plans before the officials this afternoon.

The contractors on the elevator work have almost finished their work. The elevator is practically ready to turn over, and only the testing of the machinery under actual operating conditions remains to be done at the site.

TEST TAKES WEEK
The test, it was explained by Mr. Mooney this morning, would take in the neighborhood of a week to carry out and the grain will be routed through every bin and space in the elevator in a general test of all machinery, hoists, conveyors and driers. The five cars of grain already en route are to be used for this purpose.

Mr. Mooney will remain in the city for some time, attending to final details in connection with the undertaking.

Final arrangements were made today for the routing of the trans-shipment lines for the supply of electric power. The lines will be brought across the face of the dock in front of the site to be occupied by the Victoria Cold Storage and Terminal Warehouse Company Limited, which will be accommodated in a like manner.

U.S. BUYS MORE FROM CANADA

August Trade Figures Also Show Increased U.S. Shipments to Canada

Washington, Oct. 12.—Exports from the United States to countries in North America and Asia increased during August at the same time that exports to Europe were decreasing. The Commerce Department today, in reporting figures classifying the month's foreign trade by territories, also indicated a marked decrease in the total of imports, a very large part of which was due to lower prices prevailing for raw rubber imported into this country from territories in Asia.

Exports to Great Britain during August were \$52,826,144, against \$57,609,752 last year, while imports from Great Britain were \$27,516,678, against \$23,038,022.

The status of Canada as the best customer dealing with the United States was notable during August, for which month exports to Canada were \$85,850,740, against \$75,340,598, while imports were \$43,259,657, against \$39,983,421.

WHEAT MILLING OFFERS B.C. OPPORTUNITY, TOLMIE SAYS

The importance of cheap power to develop British Columbia industries with particular reference to the possibilities of milling prairie wheat by cheap electric power in this province and the use of the offal from the milling on British Columbia farms is stressed by Premier S. F. Tolmie in a review of the economic aspect of the water powers of British Columbia.

The manufacture of Canadian wheat was held out by the Premier as an opportunity for employment of many workers while products available would be used to the advantage and rapid development of the dairy and livestock industries of the Province.

Dr. Tolmie presented his views at a meeting of the Vancouver Electric Club in Vancouver today, held at the Hotel Vancouver.

"We are all ready to admit that our resources in British Columbia are immense, that we have a Province that is rich in minerals, timber, fish, agriculture, but if these resources are not developed, then all this wealth means nothing to us except perhaps as a talking point," he said.

Cabinet Change Plans Are Delayed

Winnipeg, Oct. 12.—The entry of D. G. Mackenzie, a member of the Tariff Advisory Board of Canada, into the Bracken Cabinet of Manitoba has been postponed indefinitely, it was learned here today. The ceremony of swearing in Mr. Mackenzie, which was to have been held here yesterday, was postponed and the plans are unknown.

EARTH SHOCKS IN THE CORINTH AREA OF GREECE

Athens, Greece, Oct. 12.—The city of Corinth was shaken by a severe earthquake this morning which caused a panic among the population.

An official of the Welfare Ministry killed by a falling brick. Lesser shocks were continuing this afternoon.

EULER PLANS TO VISIT CITY NEXT MONDAY

Minister of National Revenue in Vancouver To-day on Customs Inspection Tour

Vancouver, Oct. 12.—Hon. W. D. Euler, Minister of National Revenue, did not come to British Columbia to conduct a controversy with Attorney-General R. H. Pooley, he announced this morning on his arrival here. His trip had been arranged long before Mr. Pooley made any statement about liquor administration, he said.

"I am here to inspect customs offices," said Mr. Euler.

The Minister arrived from Edmonton and is staying here to-day and tomorrow. After a visit to Victoria Monday he will proceed straight eastward, continuing his inspections at other centres.

Respecting the Pooley incident Mr. Euler said he had already replied to Mr. Pooley and the incident was closed.

"We have closed the export warehouses," he said. "They can not import a single bottle. They were simply given time to get rid of stocks in hand. We lost a very large revenue by that stop, but we did it to co-operate with the provinces in administering their liquor laws."

Asked about the suggestion of reducing the excise duty on liquor, Mr. Euler said that had been considered. It might ease his problems by making it harder for the bootleggers to operate and from that point of view the suggestion appealed to him.

"But that does not mean it will be the policy of the Government," he said. "I am administering a law which is up to Mr. Robb, as Minister of Finance, and of course the Government as a whole."

Mr. Euler said he had been asked by N. M. Carruthers, president of the B.C. Fruit Growers and Shippers' Federation, to go to Kelowna to hear the growers' representations for a revision of the dumping duty clause.

"There will not be time for me to do that, although I have told them I shall be glad to see them here at Victoria," he said.

FORTY-THREE FRENCH NAVY MEN PERISH

Greek Steamship Arrives at Rotterdam and Reports Sinking Submarine
Sea Off Oporto Scene of Disaster of Which Belated Report Has Come

Paris, Oct. 12.—Forty-three men aboard the French submarine Ondine were lost on the night of October 3, when the Greek cargo steamship Ekaterina Goulunda collided with the submarine off Oporto and sank it.

First definite news of the fate of the Ondine, which has been overdue at Bizerta, Tunis, for the last three days, came from the French consul at Rotterdam, to whom the captain of the steamship reported the tragedy on his arrival there today.

The captain said he sought in vain to save the crew, which was made up of forty men and three officers, but gave up the search after two hours.

SEARCH MADE
Although the French Ministry of Marine entertained little hope of finding any of the crew alive, it has ordered a squadron of destroyers, cruising near Oporto, to proceed to the scene of the collision and to make certain of the fate of the men.

REAL ESTATE MOVING FAST ON DOUGLAS

W. L. Morgan Follows New York Corporation and Acquires Half a Block

With the completion in the next couple of days of the purchase of the southwest corner of Douglas and the west side of Douglas Street, coal merchant, will become one of the largest individual owners of Douglas Street real estate in the high price area.

Mr. Morgan, a year ago bought the Doane Building, a two-story structure, with 97 feet frontage occupied by stores. This week the deal is being completed whereby he acquires the adjoining corner, with 30 feet of frontage on Douglas Street and running down Johnson Street to the alley.

With the new purchase, Mr. Morgan still owns 127 feet, covering half of the block between Yates and Johnson on Douglas. It is expected that eventually an important building development will be under way there.

OWN TWO BLOCKS
Three big New York corporations and Mr. Morgan between them now control, with the exception of a few feet, all the property in the two city blocks on the west side of Douglas Street, between View and Johnson. The F. W. Woolworth Company and the Metropolitan Chain Stores divide the whole block. Mr. Morgan's new purchase, which runs up to the Beehive Building, with the exception of this building, will now own the rest of the block.

With the recent activity in the Yates-Douglas Street area, due to the coming in of the Metropolitan Chain Stores with 30 to \$1 department store this winter in the Jewell Building, there has been a displacement of tenants and a bidding all along the line for Douglas Street store locations. New tenants have outbid old ones, and the old ones, now having to move, are seeking new locations. The result has been a stiffening of rents all along the street, and the beginning of a considerable business real estate movement in that part of the city.

Crossing Atlantic Ocean Aboard German Airship

The figures in the upper picture, left to right, are: Capt. A. Fleming, pilot; Dr. Hugo Eckener, commander; and Capt. E. A. Lehmann, navigator, who are guiding the big dirigible Graf Zeppelin on its voyage across the Atlantic. Behind them is a glimpse of the control cabin of the airship. In lower picture is shown, on the left, Lady Grace Drummond Hay, of London, England, the only woman among the twenty passengers on board. The crew numbers forty. The passengers paid \$3,000 each for their tickets.

HON. J. H. KING HERE SATURDAY

Minister of National Health to Speak in Vancouver Next Friday

Vancouver, Oct. 12.—Hon. J. H. King, British Columbia's representative in the Federal Cabinet, will address a combined luncheon of the Laurier and Lady Laurier Clubs of this city at the Hotel Vancouver, next Friday, October 19, it was announced today. Dr. King, after two days in Vancouver, will leave to-night for Victoria and is expected back next Thursday.

The luncheon is an engagement made by the Minister of National Health last July when he was at the Coast. The event was postponed at that time because of the death of Mrs. W. H. Sutherland, wife of the then Provincial Minister of Public Works.

FORKE WILL SPEAK
It is hoped also to have Hon. Robert Forke, Minister of Laurier, address a public gathering of some sort if he comes to the Coast on his present western tour as expected.

Hon. W. D. Euler, Minister of National Revenue, will not be able to speak during his present trip as his time is fully occupied with departmental business.

LITTLE JOE

Warning of Fake Bills Is Issued

A warning that counterfeit \$20 bills may be in circulation in the Province was issued by Deputy Police Chief Harry O'Leary this morning. The bills in question are \$20 reserve notes on the Federal Reserve Bank of Cleveland and are made from etched plates of genuine bleached paper, according to information received by Mr. O'Leary. The face appears to have been printed too heavily, causing the work on the border to lose some of its fine-line effect. The numbering is also said to be irregular. The notes are bright green on the back. Although none of the bills have yet been reported in Canada, police have issued a warning to look out for them.

PROVINCE INVESTIGATING SOURCES OF WATER POWER

Extensive investigations with a view to increasing the water power of British Columbia are being conducted by the Water Rights Branch of the Provincial Government, a statement on the subject by Premier Tolmie disclosed. The Fraser River, between Lytton and Quesnel, has a fall of one thousand feet at the rate of five feet per mile, he points out, minimum in regulated flow of 25,000 cubic feet per second, available at all times of the year. It is estimated that 2,500,000 horse power can be generated there with excellent dam sites at many points. There are no railways or valuable lands to interfere with as a result of the raising of the dike. FAIRCHILD MONOPLANE HERE TO-DAY USED IN SOUTHERN EXPLORING TRIP

Above is depicted the type of cabin monoplane used by Dr. E. W. Brandes, of the United States Department of Agriculture in his recent exploring trip in Papua and New Guinea in search of sugar cane species. Dr. Brandes' plane is in the Inner Harbor to-day, following arrival on the liner Aorangi last night. She will be tuned up at Armstrong Brothers' wharf and is expected to hop to-morrow morning for Seattle, where she will have her pontoons replaced by landing wheels, afterwards flying to New York. It was a plane of similar type to this in which John Henry Mears and C. R. Colyer completed a record-breaking flight around the world last summer.

Fairchild Monoplane Used By Explorers Is Tuned Here For Jump

Dr. E. W. Brandes, Leader of United States Department of Agriculture Expedition Into New Guinea and Papua Arrives Here From South; Fairchild Plane With Folding Wings Similar to One Used by World Fliers; to Hop From Here.

With the rapid growth of aviation during the last few years, aeroplanes have been put to many and various uses in different parts of the world. For the first time a plane has been used as the chief mode of transport for a scientific collecting expedition, according to Dr. E. W. Brandes, chief pathologist of the United States Department of Agriculture, who reached Victoria last night aboard the Canadian-Australian liner Aorangi.

Ten thousand miles were covered by Dr. Brandes and his pilot, Richard K. Peck, over the wilds of New Guinea and Papua in search of varieties of sugar cane immune to disease. Their plane, a Fairchild cabin monoplane with folding wings and pontoons, was swung over the side of the Aorangi at the dock last night. It will be tuned up here and flown to Seattle to-morrow morning, Dr. Brandes said. In Seattle, at Sand Point Field, the plane will have wheels fitted and will then be flown to Washington, D.C.

SECOND THIS YEAR

This is the second time this year Victoria has been an important point on the route of aeroplane travelers. In July, John Henry Mears, round-the-world adventurer, made this city the breaking point between his sea journey and flight to New York. By coincidence, Mears was using the same type of plane in which Dr. Brandes and his pilot have flown, except that the latter plane is equipped with pontoons instead of the regular landing gear.

Dr. Brandes himself left here early this morning for Seattle aboard the steamer Emma Alexander. His pilot remained to fly the plane.

The Fairchild plane functioned perfectly during hours of hazardous flying over the jungles and mountains of the wild South Sea island. Mr. Peck stated. Its fuel capacity allows for a

trip of 800 miles and these hops were made between different bases which had previously been established. The plane is capable of averaging 120 miles per hour.

HEAD-HUNTERS

The activities of the expedition were not confined only to sugar. Among the most interesting specimens in Dr. Brandes' large collection which he had with him on the Aorangi were a number of preserved human heads, which he secured from head-hunters in New Guinea. Some of these heads were ornamented with colored clay, while others were in their natural state, although somewhat distorted.

Dr. Brandes told of the fright of the natives when they heard an aeroplane motor for the first time. On one occasion head-hunters in the Fly River district in New Guinea threatened the party with stone clubs and poisoned spears. But the roar of the motor was "bad medicine" to the dark-skinned warriors and they took to their heels when it was switched on.

NEW TRIBE

In several places tribes were encountered and Dr. Brandes announced having discovered a fierce head-hunting group of which there is thought to be no record. Among his collection are twelve cases of weapons and curios gathered as a result of his encounters with these natives.

The success of the expedition from the standpoint of the sugar species discovered was marked. A total of 181 varieties of the wild species and one new species, which for the time was named by Dr. Brandes "saccharum robustum."

THOROUGHLY PRACTICABLE

The aeroplane as a mode of transport for such an expedition Dr. Brandes considers thoroughly practicable. The regions flown over were inadequately charted in many cases and several topographical sketches of the country were obtained. Good planning, skilful pilot-

ing and good co-operation in laying down bases was necessary, however. There were four main members of the party, although at times when walking trips were made the number reached nearly 100 with native carriers, police and so forth. Dr. Brandes was the leader, while Dr. Jacob Jewett and Mr. Peck, also of the U.S. Agricultural Department, and C. R. Pemberton, entomologist of the Hawaiian Sugar Planters Association, made up the main party.

CAUSE OF EXPEDITION

The expedition was instituted as a result of the severe decline in sugar cane yields in Porto Rico, Louisiana, Cuba, Argentina and other centers due to several infectious diseases of the plant. Relief could only be obtained, it was thought, by the discovery of immune or disease tolerating varieties.

Dr. Brandes outlined the complete itinerary of the expedition. "Fuel bases for the plane were arranged for in Sydney," he said, "and the party arrived at Port Moresby in early June. Food and fuel supplies were dispatched to Everell Junction on the Fly River by the Vansha, an auxiliary ketch chartered for the purpose. This boat also carried fourteen police detailed by the Government to accompany the party, and Roy Bannion, engaged by us to make camp and manage transport by carriers.

FAST TRIP

"After reconnaissance of the Kemp Welch and the Kikori Rivers by seaplane the scientific party proceeded to the base camp at Everell Junction, making in five and one-half hours the trip that had required three weeks by boat. By seaplane and by double canoes fitted with powerful outboard motors, the party visited practically the whole of western Papua, that it was practicable to reach by water, including the Fly River, to a point more than 500 miles from the Gulf of Papua, and its tributaries the Strickland, Alice and Palmer Rivers, Lake Murray and several unnamed lakes. A sketch map was prepared showing the approximate contour and location of fourteen lakes in the vast lake plain of the valley of the Fly observed from elevations up to 14,000 feet above sea level.

"Camp was broken on August 8, Mr. Champion and Dr. Brandes returning to Port Moresby with Mr. Peck by seaplane and Dr. Jewett and Mr. Pemberton together with the service organization on the launch Elevala, which was furnished by the government.

WALKING PARTY

"During the latter half of August and early September, Dr. Jewett, Mr. Pemberton, Mr. Champion and Mr. Bannion made a walking trip to the mountains back of Kappa Kappa and Hula, reaching the previous month on the Kappa Kappa on the Elevala. Here eighty-six varieties of sugar cane were collected.

"Meanwhile Dr. Brandes with Mr. Peck flew directly across the island, arriving on the north coast in the vicinity of the Musa River, and continuing west along the coast to the Markham River. After visiting native gardens on this river the party proceeded to the Sepik River via Madang. "From Madang as a base, the Sepik River and its tributaries were explored for sugar cane, the party reaching a point on August 30 about 650 miles from the mouth of the Sepik, and only ninety miles from the point reached the previous month on the Alice River after ascending the Fly from the Gulf of Papua. Twenty-four varieties of sugar cane were collected on the Sepik and Markham Rivers, including a number of interesting wild varieties.

"On September 3 Dr. Brandes and Mr. Peck returned from the Mandated Territory via Samarai, making the trip from a point sixty-five miles up the Sepik to Samarai, nearly 1,000 miles, in less than eight hours, and from Samarai to Port Moresby in two hours thirteen minutes. At Port Moresby they rejoined the rest of the party and prepared to depart for home.

"Altogether the party covered 10,000 miles by seaplane, 600 miles by canoe powered with outboard motors and perhaps 200 miles on foot, visiting every objective within the time limit of three months which had been tentatively set when planning the expedition."

Calgary, urging Federal aid for highway construction, the various provinces to contribute on a fifty-fifty basis as heretofore.

"The improvement of transportation facilities is still the key problem in the national endeavor to unify Canada, as it was in the time of Confederation," said Mr. Mackay.

He declared Federal aid was a national issue. Other resolutions adopted urged that Canada advertise more extensively and intensively in the United States its outdoor attractions and that the Government of Manitoba complete its part of the Transcanada Highway—thirty-eight miles from Elva to the Ontario boundary.

MAN EXTRADITED

Toronto, Oct. 12.—Barney Gannon, arrested in Philadelphia on twenty-one charges of theft and receiving, involving \$59,000, arrived in Toronto yesterday in charge of a provincial police officer. His arrival here was the culmination of a long legal battle, in which the accused man fought extradition. The charges against him arise out of his operations as a stock broker here and a raid by officers of the Ontario Attorney-General's Department on the offices of Worthington and Company, with whom he was employed.

Overdue Vessel Arrives at Port

Ottawa, Oct. 12.—The Government tug George Wykes arrived at Port Nelson safely this morning, according to a radio message received by the Department of Marine. The message did not say why the craft was overdue. It left Port Churchill Sunday and in the ordinary course of events should have reached Port Nelson the following day. It is assumed here the vessel encountered on-shore winds and fog, so ran out into the bay until conditions improved. The tug carried thirty-three men, including D. W. McLachlan, chief engineer of the Department of Railways and

Canals, in charge of Government work on Hudson Bay. No further word has been received with regard to the crew of the schooner Patrick and Michael, which went aground at the entrance of Baker Lake, the west end of Chesterfield Inlet, where one man lost his life.

London, Oct. 12 (Canadian Press Cable via Jewish Telegraphic Agency).—Police at Whitechapel broke up a Semitic demonstration said to have been participated in by more than 2,000 persons yesterday. The demonstration was in protest against the sale of non-Kosher meats as Kosher meats by a restaurant. In the melee windows of the restaurant were broken by the mob, the second storm it since the charge was first made against it.

THIRTEEN-YEAR SENTENCE GIVEN

Toronto, Oct. 12.—Dr. Robert R. Walker, who pleaded guilty to a charge of performing an illegal operation on Mrs. Charlotte Smith, of York Town ship, who died, was sentenced to thirteen years in Kingston penitentiary today by Magistrate Browne here. He also received a sentence of ten years on a similar charge in connection with the death of Miss Mary Ellen Flavin. The sentences will run concurrently. Henry Ford says men past fifty run the world. He overlooked the women under thirty.—Mobile Register.

ANOTHER PIER NOT JUSTIFIED

Port Development Committee
of Chamber of Commerce
Makes First Report

Want Present Piers Improved
and Seawall Heightened
Somewhat

Suggesting among other improvements the raising of the sea wall on the west side of Ogden Point pier, the newly organized port development committee of the Chamber of Commerce today submitted its first report to the board of directors.

The report was signed by Capt. J. W. Troup, chairman, A. F. Moffat, G. E. Hope, Capt. C. D. Burrows, H. H. King, Geo. McGregor and Lincoln Smith. The report reads as follows:

PIERS SETTLING
"Your committee would suggest that it be pointed out to the Government authorities that the concrete sea wall on the west side of the elevator pier should now be raised to a sufficient height to properly retain the fill.

Both piers have apparently been settling and should be attended to before they get seriously out of line. The level of the piers should be raised, particularly at the outer ends, in order to withstand the wash of the sea during heavy westerly winds—during high stages of the tide.

WOODEN BUFFERS
"The present piers have always been in need of wooden buffers, backed by heavy springs or other device of a flexible nature to take the blow and pressure when ships come alongside.

"The present system of ballast logs is not at all satisfactory. It would appear, and owing to their loose moorings sometimes get foul of ships' propellers and damage them. Unless this defect is remedied the port will get a bad name from the unfavorable reports of ship masters who are averse to having their ships damaged in coming alongside of a solid sea wall insufficiently protected.

"We do not believe that the Chamber of Commerce can justify a recommendation for another pier at the present time. If and when an additional pier is built it must necessarily be located between the elevator and Rutherford wharves, which would mean the dismantling of the transfer slip, which has already entailed a very heavy expenditure.

TAPER ENDS
"Reverting to the two original piers, the question of changing the shape of the outer ends might be looked into with a view to minimizing the force of the westerly swell. The present square face receives the full force of the sea, which frequently breaks over the outer ends of the piers. If the outer ends were extended and tapered to a rounded point this trouble would be obviated and ships would find it much easier to dock.

"Any or all of the above items would be strictly in line with the improvement of the facilities of this port."

It was suggested the report be held in abeyance until the committee could interview Federal ministers who will be in the city to-morrow on the subject. This action was decided upon.

Mayor Fendley, who attended the meeting, declared the City Council was in line with the suggestions embodied in the report.

George I. Warren announced the board of directors and members of the port committee had been invited to attend an informal conference with the City Council to discuss the port situation from all angles.

GRADING OF WHEAT
He said the high standards of grading the Canadian farmers were required to maintain the reputation of the British market.

"Emphatically no," he stated, when asked about the maintenance of these standards. "Owing to the pernicious system of mixing by the grain trade, which unfortunately is legal, great deterioration in the grades takes place and the product put on the market over there is quite different from that sold in our western towns."

OCEAN DIRIGIBLE FOLLOWS AZORES ROUTE

(Continued from page 1)

AIDED BY SHIPS
Bremen, Germany, Oct. 12.—Advices received here indicate the transatlantic airship Graf Zeppelin during the early hours of this morning was in touch with various steamships, including the Reliance and the Columbus. Both ships gave the airship information as to the weather and its position.

TIME OF ARRIVAL ESTIMATED

Friedrichshafen, Germany, Oct. 12.—In view of the slow progress made by the airship Graf Zeppelin in bucking head winds on its flight along the Spanish coast to Gibraltar, experts today estimated the dirigible would require 100 hours for the trip from Friedrichshafen to Lakehurst, N.J. This would mean the ship would reach the United States port at 6 a.m. Monday, Eastern standard time (3 a.m. Victoria time).

The latest weather reports this morning stated new storms were coming on the Atlantic and that the Zeppelin would probably have to go out of her way somewhat to escape the worst weather.

It was said that the airship had been delayed more time to reach Gibraltar than the ZR-3 had needed to reach the Azores. With the detour made by the Zeppelin it was estimated its mileage to Lakehurst would mount up to about 4,300.

BYE-ELECTION IS HELD IN BRITAIN

Conservatives Retain Tavistock, Devonshire, Seat in Commons

Tavistock, Eng., Oct. 12 (Canadian Press Cable).—The Conservative Party retained the Tavistock division of Devonshire in the Commons by-election held yesterday. Brigadier-General Wallace Duffield Wright, V.C., being elected to succeed Major Kenyon Slaney, Conservative, who died in September.

As in the case of the Cheltenham by-election a few weeks ago, the Government candidate was elected by a minority vote in a three-cornered contest. General Wright had a majority of only 173 over Lieut.-Commander R. T. Fletcher, the Liberal candidate, and R. Davies, Labor nominee, was hopelessly out of the running in Labor's first contest for the Tavistock seat.

The polling was: Wright, Conservative, 10,745; Fletcher, Liberal, 10,572; Davies, Labor, 2,449. In the 1924 general election the polling was: Major Slaney, Conservative, 12,058; M. R. Thornton, Liberal, 10,786; majority, 1,272. The by-election was considered a preliminary test of strength in the West of England, and the result was awaited as a possible indication of what may happen at the 1929 general election in the West, where the Liberals are optimistic of making a sweep between the Liberals and Conservatives since the World War. It went Conservative in 1918; Liberal in 1922 and 1923, and then turned back to the Conservatives in 1924.

Three-year Sentence On Narcotic Charge

Vancouver, Oct. 12.—Two prison terms, the sentences to run concurrently, were imposed by Magistrate Shaw here today, in the case of Lum Sing, charged with being in possession and distributing drugs.

The accused was arrested by the mounted police with drugs in his possession and while out on bail on that charge fell into the hands of the city police on the more serious charge.

For distributing, the court sentenced Sing to three years imprisonment with a fine of \$500, in default of payment of which a further six months must be served, while on the possession charge a term of one year, with a \$200 fine, was ordered, three months extra to be added in default of payment.

Head of Church Attacks Divorce

Winnipeg, Oct. 12.—Calling divorce the "canker that is eating the very vitals of civilization," and condemning the modern tendency toward "sensationalism" in marriage, Archbishop Matheson, Primate of the Anglican Church in Canada, today called on the Mothers' Union of the Anglican Church to do its utmost to check the growing menace of divorce today. Speaking before the convention of the Canadian Council of the Mothers' Union here, the Archbishop reviewed the aims of the organization and complimented it on what it had accomplished. One of its chief claims for support, he said, was that it set its face against divorce. As a means of preventing divorce and impressing on the people the solemnity and sacredness of marriage, Archbishop Matheson urged the Mothers' Union to bring forward the religious side of marriage.

EULER PLANS TO VISIT CITY NEXT MONDAY

(Continued from page 1)

mous Wednesday on my way East," he said.

"As a matter of fact, I think I understand the situation, and I think they know that. Nothing can be done until there is a session of Parliament, but we are taking a keen interest in the matter, and we are not going to let any industry be ruined if we can help it. I can not announce what the Government's policy will be, but if the Government thinks the law should be changed it will be done next session."

The Minister announced that in pursuance of the report of the Customs Inquiry Commission, more than fifty small customs posts had been closed during the last three months and others were under consideration. The suggestion that the small outposts were responsible for undervaluations was erroneous, he said. Most of that took place at the big ports and the remedy was a strengthening of the appraisal staff.

NEW APPRAISERS
"That means we must have appraisers who know the value of goods," he stated. "We are attending to that as rapidly as we can."

Mr. Euler's inspection, he stated, was with a view to strengthening the administration in whatever ways were found necessary. He wanted the staffs to be prompt, courteous and efficient and he desired to have the department units housed in accommodations suitable to give those results. Where improvements could be made it was his purpose to find out what was required and arrange for the changes necessary. Generally speaking, he said, the department appeared to be doing good work and the revenues this year were about ten per cent ahead of last year.

FORTY-THREE FRENCH NAVY MEN PERISH

(Continued from page 1)

The Ondine, 600 tons, left Cherbourg on an endurance trial run October 1. She was last heard from on October 3 by a Spanish wireless station. Her position was then given as off Cape Finisterre.

The Ondine was due at Bizerta, seaport of Tunis, on October 9. When she did not arrive the French naval authorities began a search for her in the hope she might have met with some accident which made it impossible for her to give her position.

WINTER IN WYOMING

Cheyenne, Wyo., Oct. 12.—Winter took a firm hold in Wyoming today after blanketing the entire state with snow ranging in depth from one to eight inches.

ANGUS CAMPBELL & CO. LTD.

1008-10 GOVERNMENT STREET

Menus For the Family

Breakfast—Stewed prunes, cereal, cream, scrambled eggs with bacon, oven toast, milk, coffee.
Luncheon—Kohlrabi in cream sauce, toasted cheese sandwiches, peach snow-balls, lemonade.
Dinner—Roast chicken, mashed potatoes, fried summer squash, fresh pear and celery salad, chocolate ice cream, plain cake, milk, coffee.
PEACH SNOWBALLS
One-half cup rice, 2 cups boiling water, 1 cup milk, 1/2 teaspoon salt, 4 large peaches, 4 tablespoons sugar, butter, 4 preserved or candied cherries.
Wash rice and dry into boiling water to which salt has been added. Cook

until water is absorbed. Add milk and cook over hot water until kernels are soft. Pare peaches and remove stones. Put a cherry in the cavity. Cut four squares of cheese cloth and dip in hot water. Spread each square with rice and put a peach in the centre. Sprinkle with sugar and dot with butter. Pull corners of cloth together and tie. Steam from thirty to forty minutes. Remove from cloths and serve with sugar and cream.

Double Collar

A tan and brown printed velvet frock has a double-collar that points down in the back and at both sides of a square front neck, made of yellow beige georgette over brown faille.

BRITISH EDITORS HERE ON PEACE TOUR

Guests of the Carnegie Foundation for International Peace, fourteen celebrated British newspapermen have arrived for a tour of the United States. Here you see them after landing in New York; left to right, rear row: H. Jaques, Surrey County Herald; Alan Pitt Robbins, London Times; William Clarke, Belfast Telegraph; F. B. M. Roberts, The Scotsman; R. A. J. Walling, Western Independent; William Cowper Barrons, Yorkshire Evening News; H. G. Davey, Borrow's Worcester Journal. Blumenfeld, London Express; president Institute of British Journalists; F. Lawrence Johnson, Northern Daily Gazette; W. J. T. Collins, South Wales Argus; Henry C. Owen, Glasgow Sunday Mail.

Why BOVRIL prevents that Sinking Feeling

Why is it that one has such a fine feeling of buoyancy after drinking a cup of Bovril? Modern research has shown that in addition to proteins of exceptionally high food value, beef has certain unique powers of stimulating cellular activity—that is to say of stimulating vitality.

Bovril is the concentrated essence of this "vitality power" of beef. That is why Bovril is such a powerful stimulant and sustainer, why, in fact, "Bovril prevents that sinking feeling."

CARNIVAL SPIRIT AT HIGH SCHOOL

First Year Students Given Great Welcome By School Bodies

President Manson of Student Council Asks For Their Support

The spirit of carnival ruled yesterday afternoon after classes, at the Victoria High School, when the first year boys were welcomed into the school by the Students' Council, Beta Delta, and the Y Club. The boys gathered in the lunch-room and were addressed for a few moments by Herbert Manson, president of the council; James Mayes and Irvin Dawson. Then everyone repaired to the gymnasium, where some interesting competitions for preliminary students only had been arranged by the drill instructor. Obstacle, peanut, hand and leg and potato races were entered into with enthusiasm, and if noise is any criticism, the afternoon was a great success.

ASKS FOR SUPPORT
President Manson gathered the boys in a circle and made an appeal for greater co-operation between prelims and prefects.

Each boy then told the gathering his name and the division he belonged to. This was done in an effort to have everyone know his fellow students. The first year students went home with a feeling that they were in reality full-fledged members of the Victoria High School.

SEES FAILURE OF GENERAL STRIKE

T. Hughes, Sydney Manufacturer, Discusses Australian Situation

Little success for a general strike among Australian dock workers owing to dissension in the labor ranks was seen by Thomas Hughes, prominent manufacturer of Sydney, N.S.W., who arrived here last night aboard the liner Aprang from the Antipodes. "It has been my experience that if all branches of labor unions do not strike together or in the first week or so of a strike they will not go out at all," said Mr. Hughes.

DISSENSION IN RANKS
In Australia, he pointed out, it was highly improbable that a general strike of workers in all the country's ports would be successful owing to the dissension in labor. Although one group of workers would go out, it had been difficult to secure a complete walkout, he said.

In cablegrams he had just received from Sydney, he stated, there was little trouble there at present, said Mr. Hughes, the boats having no difficulty in entering and clearing with their cargoes. Another factor, which tended to ward off a strike was the approach of the wool shipping season, he said. It would not be profitable for the unions to call a walkout at this time.

DEEP COVE ASKS LIGHT SERVICE

Subject Discussed at Sidney Trade Board Meeting

Sidney, Oct. 12.—The question of the proposed extension of electric light into Deep Cove created considerable discussion at the meeting of the Sidney Board of Trade Tuesday. The board was advised that it was almost impossible at the present time to raise the necessary guarantee of \$2,400 demanded by the B.C. Electric, but that practically every day in the proposed area has signed this petition, giving a guarantee of nearly \$2,000. The matter has been left open until October 15 and a further canvass is being made in hopes of increasing this total. The Sidney board has given this matter considerable attention in the past, deputations from the board have taken the question up with Victoria officials of the company and the secretary was instructed to write to the company at Victoria asking that, in view of the guarantee being so nearly met and the growth that is taking place in Deep Cove area, that this question be reviewed very seriously and the work of extending their service into this area be put in hand. A committee was appointed to interview the Victoria officials on the matter.

FINANCES SOUND IN OAK BAY

Favorable Report For First Nine Months of Year

Arousing comments of satisfaction from the reeve and councillors, the financial report of the Oak Bay Municipality for the first nine months of this year was read before the council at its regular meeting last evening.

Reeve Hayward and the councillors expressed themselves as well pleased with the present financial condition in the municipality, with every prospect of improvement and growth to be reported at this time next year. The statement read to the council did not include adjustments for stores, road material and stable accounts for September, as reports regarding them were not received when the statement was printed.

The statement gave a synopsis of receipts and expenditures for 1926, 1927 and 1928. Receipts for the first nine months of 1926 were shown to be \$230,985; for 1927, \$224,850, and for 1928, \$238,205; estimated expenditures for the twelve months of each year were, for 1926, \$168,259; for 1927, \$165,067, and for 1928, \$200,300. Approximate accounts payable for the three years were shown as \$13,000 for 1926, \$5,560 for 1927 and \$6,700 for 1928.

RECEIPTS
The estimates of receipts for the entire year was shown to be \$268,713. There is every reason to suppose that the balance of \$30,568 for the last quarter of the year will be exceeded. Transfers of sinking fund for \$6,570 and municipal water accounts for \$2,500 could be translated at any time into receipts. The report further read that \$6,300, \$5,500 and \$2,300 from Government grants for teachers' salaries, liquor profits and betting tax, respectively, could be anticipated with assurance. Water receipts and taxes for

the last three months were \$7,200 and \$7,500, respectively. There will also be a substantial item for bank interest in October.

TAX RECEIPTS
It was noted that receipts from taxes are already within \$380 of the year's estimates and receipts from tax sale lands, fees and departmental revenues have already exceeded the estimates placed upon them.

The cash balance on hand is \$99,555, as compared with \$110,892 at this time last year. This balance has been and will be affected by local improvements in progress, which are being financed temporarily by the general fund.

EXPENDITURES
On the expenditure side, it seemed that, as a whole, the total estimates

would not be exceeded. In a few cases, however, the estimates have already been exceeded. The most serious over-expenditure is in boulevard maintenance. The excess expenditure for sewer extension, \$384, is offset by receipts for \$1,375 for a sewer in the Uplands, which receipt was not contemplated in the estimates. Copies of the receipts and expenditures were handed to the reeve and each councillor.

ALBERTA DEATH

Edmonton, Oct. 12.—Hartley Mansell Pearson, general superintendent of elevators of the Alberta Wheat Pool, who was taken ill in Chauvin several days ago, died in an Edmonton hospital Wednesday.

Makes Sandwiches Flavourful

Popular hostesses find that Colman's Mustard gives a marvellous zip to the flavour of minced meat, cold meat, fish, cheese, egg, salad and other sandwiches. Try adding a dash of Colman's to your own sandwiches and see how it develops their tastiness.

Bread Making around the world

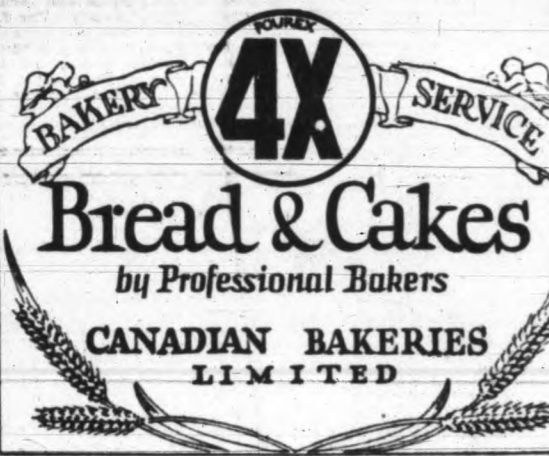

Persia

A Typical Eastern Bakery

THE illustration shows a scene in a typical Persian bakery, where ovens are set into the floor of the room and lined with clay. The women make the bread by a very simple process. First the oven is well heated by live embers of animal fuel, then a flour and water dough is mixed, to which is added a piece of leaven from the last baking. This dough is worked into flat round cakes about eighteen inches in diameter and half an inch thick, which are placed on a cushion, clapped against the hot concave sides of the oven and the cushion withdrawn. In one minute the bread is baked and removed.

WHAT a striking contrast to the methods used in the modern Canadian 4X Bakeries. Here, under spotless sanitary conditions, 4X Bread is scientifically baked fresh every day for over 98,000 Canadian homes.

Leaders of Church Discuss Marriage

North Bay, Ont., 12.—The Anglican Synod of Ontario, in session here, placed itself on record as approving the principle that clergymen should give instruction "on the holy state of matrimony." A resolution adopted stated one of the urgent needs of the

people to-day was "steadfast loyalty to the Christian ideal of marriage." During the debate, Bishop Roper of Ottawa declared the Church of England in Canada "does not know divorce and does not sanction divorce." "Temporary marriage can not be accepted as a marriage at all," he declared.

Ann—Are you interested in sports? Fan—Well, I only know one and he's not so very sporty.

Of Interest to Women

FLOWERS FOR FALL

Fall flower styles feature sturdy dahlias or chrysanthemums in tawny tones in a bouquet for street wear (above), orchids, roses and ferns in the new large shoulder bouquet for afternoon (upper left), and tulips, tube roses and lilies of the valley for the newest of all, the anker bouquet.

DUTY ADDED TO ARTIFICIAL SILK

Ottawa, Oct. 12.—A special order of dumping duty henceforth is to apply to artificial silk fabrics imported into Canada from Great Britain, says an order issued to customs collectors throughout the country.

An excise tax of one shilling a pound is imposed in Great Britain on artificial silk yarn produced there, and a drawback equal to one shilling and nine-pence a pound is granted where such silk yarn is exported. In future customs appraisers are required to add this drawback to the value of the imported goods for ordinary duty. For special duty purposes the one shilling excise tax, which forms part of one shilling and nine-pence, has to be disregarded, but the nine-pence a pound on the imported fabrics is not constituted a special duty.

A provision is made that this special duty will not apply to goods bona fide purchased on or before October 4 and imported before December 1, 1928.

TARIFF BOARD HEARINGS

Ottawa, Oct. 12.—Hearings to be held by the Tariff Board were announced yesterday.

On November 6 the board will hold a session on an application by M. Allen and Company of Toronto. That firm is applying for a downward revision of the tariff on malted extracts, while an incorporated application by the Northwest Brewing Company of Edmonton seeks cancellation of the excise tax of three cents a pound on malt used in the manufacture of yeast.

PUTTY ON NUTS
Three hearings will hold the attention of the board on November 7 when

an application by the confectionery, biscuit and chocolate industries of Canada for a revision of the tariff schedules on nuts, an application of Dordwell and Company of Vancouver for a downward revision on unwaxed, desiccated coconut, and one from the International Clay Products Limited of Estevan, Sask., for free entry of clay working machinery will be considered.

Your Baby and Mine

By MYRTLE MEYER ELDER

Any reader who would be interested in receiving Mrs. Elder's "Weaning and Feeding" leaflet may obtain it for only a self-addressed, stamped envelope enclosed with your request. Address communications to Myrtle Meyer Elder, in care of the "Your Baby and Mine" department of this newspaper.

MANY REASONS FOR LACK OF INTEREST IN FOOD

Mrs. M. W. writes:
"My little girl, three years old, has developed the habit of dawdling over her food. She will eat a few bites and then begin to play and when I take her away she cries for it. She seems very uninterested in her meals and never eats really hungry. I am afraid her weight which is just right, will suffer if I take her food away at the end of a half hour and would like to know what you think of this policy."

ANSWER
First of all there is some reason why the child is uninterested in her food and this happens most often with the child who is overfed. She may be given three hearty meals, and then fruit, or bread and butter or milk between meals, so that the sharp desire for food is absent when she sits down to eat. Cutting down the number of meals per day from four to three and giving her nothing at all between meals will act as a spur to her appetite.

Some children get into the habit of playing at meal-times because they enjoy being coaxed to eat. "Take another bite, darling, of this nice pudding and just one more spoonful of your carrots," says mother in a wheedling tone, and the child refuses or accepts and tastes all the joys of a master. Food should be served to a child as it is to an adult with the expectation that it will be eaten. If it isn't, it should be taken away when the rest has finished and the dessert brought in. If this is started in the morning, instead of at night, the child won't miss more than two meals without realizing that it is expedient to eat more nibbly or there will be nothing to eat.

Small babies, when they first begin to handle a spoon get very tired after a few bites. The mother should not insist on the baby's feeding himself, but quietly help him out. When he has had enough, it should be taken away. Clean plates are a fetish with some mothers. They demand that every spoonful of a specified portion shall be eaten at each meal. No one, least of all a baby, has exactly the same relish for the same amount of food every day and it is better to allow him to eat one spoonful with appetite and then take away the rest and offer something else, than to tease and cajole him into finishing his three table-spoons. This is the very education in playing with unwanted food, and encouraging the child to become a "feeding problem," which later so annoys a mother.

Saanich Liberals To Open Season With a Social

Ward Four Liberals of Saanich will open their winter activities on Tuesday evening at Marigold Hall with a social gathering to which young people and newcomers to the district are cordially invited.

An attractive musical programme has been arranged, and there will be brief talks by Mr. C. H. O'Halloran and other speakers. Light refreshments will be served, and the evening will close with an informal dance.

A meeting of the Colwood Optimists will be held Monday, October 15, at 7:30 p.m., at Nightingale.

ULSTER GREETINGS PRINCESS MARY

Magnificent Welcome For Viscount Lascelles and Royal Wife

Hillborough, Northern Ireland, Oct. 12 (Canadian Press Cable).—After bidding farewell yesterday to the Irish Free State, Viscount Lascelles and Princess Mary came to Northern Ireland, and became immediately acquainted with the affection in which they are held here. They received a magnificent popular welcome. One thousand children massed together, waved small Union Jacks as the train drew in.

Why MALKIN'S BEST BAKING POWDER is better than ordinary brands

Mrs. J. V. B., Fraser Street, Vancouver, says: "I have been in Vancouver twenty-nine years and have tried all its Baking Powders and have found none to compare for QUALITY and PURITY WITH MALKIN'S BEST BAKING POWDER." (Original letter on file)

A PLEA

addressed to every serious-minded
and public-spirited citizen!

THE NATIONAL COUNCIL OF WOMEN are making their first appeal for public support in the vital work this body of public-spirited women are carrying on in their effort to bring about improved conditions for the Women and Children of Canada. That this body may continue its services to the needy . . . that the excellent work so ably started may continue . . . YOU must help.

From the Atlantic to the Pacific this great organization draws its membership from the flower of Canadian womanhood—mothers and wives of the Dominion. It exerts a powerful influence for good on the life of community, province, and nation.

The Council was founded in 1893 by the Marchioness of Aberdeen and Temair as the second body of its kind in the world. During its thirty-five years, it has occupied an increasingly important place in the realms of Canadian art, literature, education, religion, philanthropy, and social service.

In fifty towns and cities, including all principal centres of the Dominion, it is represented by Local Councils, each of which is composed of from ten to one hundred women's associations.

Other nationally organized women's groups are affiliated with it.

The Council's Platform is set forth in the titles of its standing committees, each of which is at work on some problem of National import. Conveners and members have special knowledge of the subjects with which the committees deal. The National Standing committees are:

- | | |

As a new need arises, a new committee is formed—when a committee achieves its goal, its members are released for other duties. In this way the Council is ever in step with the nation and the times.

Many national problems have been solved by this policy. One of them—the providing of skilled medical attention for poor families, or those of limited means, was cared for early in the history of the Council by the establishment of The Victorian Order of Nurses. These splendid women will be found on their errands of mercy in the slums of large cities and in sparsely settled districts where doctors have not yet become established.

As mentioned before, the Council secured supervised playgrounds. Through its efforts, it has succeeded in having Domestic Science and Manual Training added to the Curriculum, and Medical and Dental inspection later introduced into the schools. It demonstrated the need of women judges and police in cases involving women and girls—in some places this was done by paying these officials' salaries until civil authorities conceded their value.

The Council was instrumental in having the Mothers' Allowance Act passed, and in securing a Federal divorce law, giving equality in divorce between man and wife and in raising the age of consent to eighteen years. Through its influence the minimum wage was established, and mothers were granted the right of co-guardianship of their children.

The National Council of Women can boast the following achievements—

THE ESTABLISHMENT OF THE VICTORIAN ORDER OF NURSES	REVISED FEDERAL DIVORCE LAW
SUPERVISION OF PLAYGROUNDS	MINIMUM WAGE ACT
THE MOTHERS' ALLOWANCE ACT	WOMEN MAGISTRATES
CO-GUARDIANSHIP OF CHILDREN ACT	WOMEN POLICE MATRONS

THE NATIONAL COUNCIL OF WOMEN OF CANADA

WALKING AWAY WITH COMFORT STYLE AND VALUE

No wonder so many smart women are stepping out this Fall in Munday's Smart Footwear. For here we have crowded style and value into the price as never before.

HARMONY AND SONS WINNERS

Former Defeat College, While Sons Beat Keatings in City Basketball

Keating Harmony and Sons of Canada were the winners in the Victoria Basketball Association's games played last night at the Centennial gymnasium. Keatings won their game from the J.B.A.A. by default. Harmony Girls defeated Victoria College 28-6, while the Sons of Canada won from Keating 39-24.

The ladies' exhibition game between Harmony and Victoria College supplied plenty of good basketball, but the college fell down badly when it came to finding the basket. Harmony showed a neat passing attack, and their forwards were deadly under the basket. Verna Foubister collected seven points during the game and Elsie Mathews scored nine.

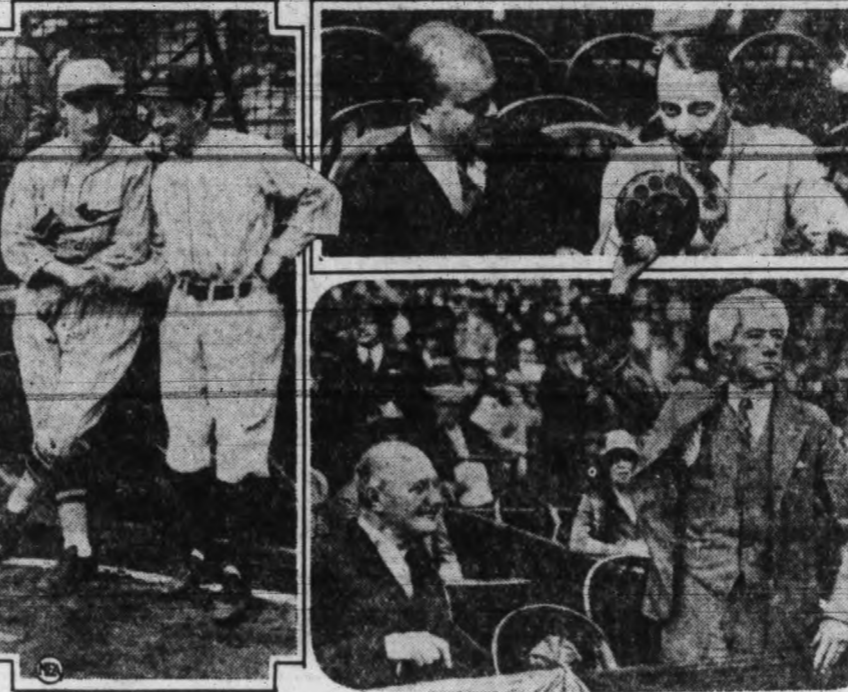

Bill Blair refereed and the teams were:
College—C. Hammersley, J. Moody, A. Code, J. Edward, R. Fields, B. Penzer and G. Stype.
Harmony—V. Foubister, 16, I. Alexander, 2, A. Hall, A. Wood, E. Mathews, 10, J. Speed and B. Armstrong.

The final game of the evening was fast and furious from start to finish, and persons were handed out in great numbers. Sons of Canada were finding the basket with great regularity, while the men from Keating could not accustom themselves to the basket. Bill Blair and T. Forbes refereed, and the teams and scores were:
Keating—Mitchell 18, Bagley 2, Cunningham, Atkinson 2, Bates 1 and S. Bates 2.
Sons of Canada—Greenwood 8, Nicol 5, Brynjolfson 7, Dempster 4, Sword 6, Taylor, Partington 4 and John Taylor 4.

INTEREST KEEN IN O.C. SOCCER
Derby County-Manchester City Match Feature; Burnley Will Travel

London, Oct. 12.—The attention of soccer fans to-morrow will be focused on the Derby County-Manchester City fixture at Derby. It is the feature of

AMONG THOSE PRESENT AT SERIES

The cameraman at the World Series games at Yankee Stadium, New York, found many an interesting bit of action that didn't happen on the diamond. At the left, for instance, is the meeting of the rival managers: Bill McKechnie, of the Cardinals, left, and Miller Huggins, Yankee pilot. Then, upper right, there was that famed radio pair, Phillips Carlin, left, and Graham McNamee, telling the world about the thrilling game. Below you see baseball czar Landis tossing out the first ball, while his companion in the box looks on with interested but puzzled air. For the seated spectator is Field Marshal Viscount Allenby, in America for the first time, as a guest of honor of the American Legion. Lord Allenby didn't know baseball, so his host explained each play.

the matches in the English League. First Division. Derby County are at the top of the averages and Manchester City is third. The Manchester club, if they beat Derby, and Blackburn Rovers, second club, who meet Everton, are beaten, can come up to the head of the standing, which would be a very fine thing for a team which only came up from the Second Division this year. The Rovers are at home.

BURNLEY TRAVELS
Burnley must travel to Leeds, and their chance of getting back into the lead, they lost last week is merely mathematical.

In London West Ham United play Arsenal, and should pick up a couple of points which will help them in their fight for league leadership. London will see another struggle, between Chelsea and Clapton Orient, on the Pensioners' ground.

In the Scottish League First Division a capacity crowd will doubtless watch the game between Celtic and Motherwell. Celtic, having won the Glasgow Cup again, will now go after league points. They are at present halfway down the averages, but have games in hand owing to their cup engagements. Motherwell, who have kept all their league engagements, have got to fight to keep near the top.

They will find themselves mistaken. The prevailing intelligence here, such as it is, makes our people well-aware that the best immigrant is the one who comes of his own will and up-standing on his own feet. Experience with assisted immigration has not been encouraging. Apart from that, too, we have a winter here as well as a summer, and experience has taught us that no rashly large addition must be made to that part of the population which wherever they may have been in the warm-weather, flock to the cities when winter comes. There always is, and always has been, enough of these and sometimes far more than enough. There is in Canada every confidence in the future of the country and in its ability to absorb millions of people from the old world, among whom British people are and always have been preferred. But the suggestion that we must devise inducements that will cause millions to come here who don't want to come at a time when their coming in great numbers would be too much for our capacity to absorb them is so entirely a suggestion inspired by the needs of those who make it, and not by our needs, that we may fairly ask them to supply for the occasion "the big mind" that can solve the problem and frame the plan which they think would meet their necessities in the matter. Then there would be something before Canada for her to consider.

K.O. Kaplan Loses To Foreign Boxer
New York, Oct. 12.—Rene Devos, blonde Belgian middleweight, battered out a decisive victory over K. O. Phil Kaplan, one of the few remaining obstacles in his path toward a shot at the 160-pound crown, in a stirring ten-round battle last night in Madison Square Garden.

Devos, who was second for a count of two with a hard left hook in the second round. Kaplan, fought gamely, but could not match the punching power of the brilliant invader. Devos scaled 160½; Kaplan 160.

Lady Rider Wins English Classic
Newmarket, England, Oct. 12.—Four women jockeys and two men participated in the historic Town Pale horse race yesterday, which was first run during the reign of Charles II, the race being captured by Miss Iris Bickley, riding Bogus. Mrs. L. Heald, riding Duc de Guise, was second.

The other women jockeys were Miss D. Savanders, on Fay Toy, and Eileen Joel, daughter of the millionaire, Sol Joel, on Peacemaker. The four women wore breeches, heavy riding boots, spurs and jockey caps.

WHAT IS IT THEY WANT?
From The Toronto Star
In an article on unemployment and immigration, Sir Philip Gibbs declares that Canada and Australia are not "playing the game." They are not, he says, "making things easy for English settlers."

How easy ought things to be made for these settlers? The people of this country did not have things made easy for them when they or their ancestors came here. In fact, everything is infinitely easier for newcomers now than at any earlier period. There is not a rule or regulation, not a particle of what they call red-tape, used now that was not in use twenty-five years ago or at times before and since then when British immigration to Canada was at its highest.

The difference is not to be found in anything Canada has done or left undone. The difference consists in the diminished inclination of British people to pack up and quit their own country. Since the Labor party came to the front the exportable population feels disposed to stay at home and get what they want by voting for it. They are told by their spokesmen to distrust any proposal that they should emigrate, as they or their ancestors did, and that they should be a device of the ruling classes to get rid of their voting strength in the elections. This phase of the matter is one that critics of Canada over in London do not care to discuss at all. They feel that the less said about it the better.

In his article Sir Philip Gibbs, after citing Australian severely, says: "In Canada it is not much better." Bishop Lloyd would have us believe that Australia is doing wonders, and only Canada displeases him. Sir Philip rates us as Dominions are a bad lot it seems. "The Canadian Government," he says, "looks askance at English immigration and is not co-operating with any great enthusiasm in any big policy of settlement." Quite evidently Sir Philip wants to see some big plan evolved whereby hundreds of thousands of British unemployed may be brought over to Canada and absorbed here. In not doing that he is not playing the game. He says it is damnable that there should be the present inaction. "Is there no big mind," he demands, "in Canada or Australia, but only little pettifoggery men swayed in red tape and putting up nagging objections to visions of the future?"

The fact is we have in Canada, as

GOLF TOURNEY AT MACAULAY

Teams Led By President and Vice-President to Meet in Match

A tourney is to be played on Sunday between teams captained by the president and vice-president of the Macaulay Golf Club, meeting at 9 o'clock. In while in the afternoon singles competitions will be staged.

The draw and starting times are as follows, with the president's players mentioned first:
9.00—W. S. Morris and J. Burns vs. N. Wallace and D. Fyvie.
9.05—C. H. Christopher and E. D. Freeman vs. T. Angus and A. Little.
9.10—C. L. Campbell and R. Whitlaw vs. G. Florence and G. Jones.
9.15—F. Lister and A. G. Palmer vs. J. P. Locke and C. G. Mitchell.
9.20—F. Morgan and W. B. Christopher vs. J. Simpson and J. Buss.
9.25—F. J. Fearns and R. V. Hocking vs. J. H. Carter and T. W. Taylor.
9.30—A. Stokes and A. Ashe vs. C. Downman and P. Durling.
9.35—A. P. McFayden and F. Hobson vs. A. H. Lund and R. P. Thompson.
9.40—J. W. O'Kell and A. Roberts vs. A. F. Slocumb and F. Shadbolt.
9.45—A. F. Collins and G. R. Fleming vs. V. M. Gallon and J. M. Gibson.
9.50—D. Jackson and R. Fromson vs. S. House and R. Fox.
9.55—M. H. Hurley and F. Raybone vs. H. W. Wilders and Capt. H. L. Roberts.
10.00—N. H. Gunn and F. V. Thompson vs. J. D. McNeill and J. Hembroff.
10.05—C. Swayne and A. N. Other vs. J. G. Smith and P. White.

DEEP SEA, COASTWISE SHIPPING, AND RAILROAD NEWS

TWO BIG LINERS KEEP DOCK BUSY

Aorangi from Australia and
Empress of Asia Bound For
Yokohama Berth Here

The outer docks bristled with activity last night when two large passenger liners berthed, one inbound from the Antipodes, and the other bound for the Orient.

More than twelve hours ahead of schedule, the R.M.S. Aorangi arrived at the William Head quarantine station at 4 o'clock yesterday afternoon and came alongside the Rithet pier, about three-quarters of an hour later. Fifteen minutes after that the Canadian Pacific liner Empress of Asia came in sight from Vancouver and, being told by wireless that the Aorangi would occupy the dock for at least an hour, steamed into the Royal Roads. The Aorangi was in port an hour longer than expected and it was not until 7:30 o'clock that she got away. The Asia then steamed in from Esquimalt but not for an hour were gangplanks put down and passengers and visitors allowed aboard.

She took on one of the largest passenger lists to board a liner at this port for some time. About 400 passengers will be embarked here, 200 first, second and third and 200 Chinese steerage. The big white liner cleared for Yokohama at 10:45 o'clock, laden with one of the heaviest cargoes to be taken from Vancouver this year.

R.M.S. AORANGI

The Aorangi from Australia, New Zealand, Suva and Honolulu had one of the smallest passenger lists to be brought here from "down under" this year. There were only about 300 passengers in all classes aboard, 140 in the first cabin, 100 in the second and the rest in third. The liner brought 1,500 tons of general cargo, including a large shipment of New Zealand butter. Sixty tons were left here.

Capt. T. V. Hill, commander of the liner, reported an uneventful trip with good weather until they reached this Coast when a bit of a blow was experienced. Outside of that nothing of any importance marked the three-week voyage from Sydney.

DENNY GOES TO SEATTLE

Will Pass Through Victoria
Again on Way to California
Sunday Morning

Because the duck hunting season on Vancouver Island will not open until October 15, Reginald Denny, famous movie star, went on to Seattle on the Emma Alexander early this morning.

When Denny and his party left the south the star intended to stay on the island to have some shooting but the closed season here prevented this. The famous star of movieland will be in Victoria again on Sunday morning for two hours while the Emma is in port on her way to California from Seattle. Denny and his company of fifty are making a picture of shipboard life called "Clear the Decks" and it was for the purpose of shooting scenes for this picture that the company engaged passage on the Emma.

Passenger this trip reported plenty of activity with the movie company on board and something was doing at all hours of the day and night they said. Heavy winds delayed the arrival of the liner just off the coast and it was 12:30 o'clock before she tied up at the Rithet pier. After disembarking forty passengers and discharging sixty tons of freight the liner left for Seattle at 3 o'clock this morning.

TO VISIT EUROPE

CAPT. CYRIL D. NEROUTSOS
manager of the B.C. Coast Service,
who will leave shortly for England
on company business.

"But why, Mrs. Gregson, do you call the house 'Marine View'?" All the windows look out on a blank wall.

"Well, you see, my late husband was in the marines, and when he retired he was very fond of looking out of these windows."

SAILS FROM YOKOHAMA FOR THIS PORT

C.P.S. EMPRESS OF CANADA

which sailed from Yokohama yesterday for Victoria and Vancouver. She is due here early on the morning of Saturday, October 20. The Canada is now on her last round trip on the Pacific and will sail from Victoria on November 1 for China and Japan en route to Scotland, where she will be re-engined for the Empress of France will take her place on the trans-Pacific trip. Capt. S. Robinson is in command of the Canada, and he, his officers and crew will change to the France at Manila when the two liners meet there early in December.

CATHOLICS BACK FROM CONGRESS

Officers on the R.M.S. Aorangi, which docked last evening from Australia, reported one of the most religious trips since the liner was brought out from England and placed in service four years ago.

A party of about twenty-five dignitaries of the Roman Catholic Church boarded the liner in Sydney after attending the Eucharistic Congress held there early in September. A large number of them left the liner at Honolulu and went from there to California, a party of six coming on to Victoria. An altar was erected in the lounge for daily mass, and passengers and crew assembled there every morning. The service making a welcome diversion from the usual shipboard routine. In Honolulu the bishop of that city entertained the returning delegates at a dinner, at which there were representatives of more than a dozen nationalities.

SPANISH BISHOP

Those coming on to Victoria included Don Javier Yraola, Bishop of Oribuela, Madrid Spain, and a cousin of King Alfonso of Spain. He went on to Vancouver on the liner and left immediately for the East, from where he will sail for Europe. Others in the party were the Rev. Thomas O'Donnell, Bishop of Victoria; Rev. J. Stafford, Rev. T. M. Ryan of Seattle; Rev. D. O'Connell and Mr. J. J. Clifford of Los Angeles. Others returning from the congress were S. Calderon and Mrs. Calderon and their private physician, Dr. L. G. Paratichio of Madrid, Spain. They will travel to Europe with the Bishop of Madrid. During the short stay of the Aorangi at this port the party left the liner and visited the local Catholic Church, and were taken for a short drive about the city.

GAINS OF P.G.E. ARE DESCRIBED

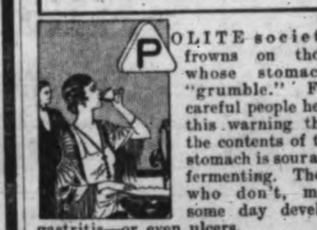

Vancouver, Oct. 12.—Declaring that in 1927, the first year in office of the present directorate of the Pacific Great Eastern Railway, the operating deficit on the line, \$190,239, had been reduced by \$64,753, compared with the previous year, W. Kitchen, one of the directors, gave an optimistic address as to the future of the railway before the Vancouver Kiwanis Club at a luncheon yesterday. The speaker added that the surplus this year showed there would be another very creditable reduction in operating loss this year as well.

"One thing impressed me very much," Mr. Kitchen said, "and that was that the month of August this year was the first time we have been able to turn the corner."

"But we want more settlers on the line and more money opened up and then it will not take much for us completely to turn the corner and show a profit instead of a deficit," he declared.

The speaker was introduced by Thomas H. Kirk, M.P.-elect. Other P.G.E. directors present were Chris. Spencer, Railway W. J. Blake, Wilson, Robert Wilson, P.G.E. executive assistant, also attended.

Sour Stomach Sign of Carelessness

POLITE society frowns on those whose stomachs "grumble." For careful people heed this warning that the contents of the stomach is sour and fermenting. Those who don't may some day develop gastritis—or even ulcers.

Nine times out of ten indigestion and allied stomach disorders are due to excess stomach acid, which impedes normal digestion and forms sour gases that cause intense pain. To restore good digestion you must eliminate the cause. A tablet of "Pape's Diaperin" after eating or when pain is felt will instantly neutralize the acidity and banish all digestive trouble and pain.

So, do buy a 60-cent package of "Pape's Diaperin" today. This not only means instant relief, but by soothing, healing and strengthening your weak and disordered stomach a little "Pape's Diaperin" keeps your digestive system healthy and helps to prevent various disorders.

(Adv.)

HEAVY SEAS DO GREAT DAMAGE

San Pedro, Cal., Oct. 12.—One man was believed drowned and at least three small boats were hurled against the rocky coast, between here and Redondo Beach last night by heavy seas, whipped by a forty-mile wind.

Jack Chris, forty, was the man thought lost. He left Redondo Beach for Los Angeles Harbor in a small craft shortly before the gale struck. Several hours later the lighthouse keeper at Point Vicente reported seeing an overturned craft off shore and a man clinging to it. Later a small boat was battered against the rocks near the lighthouse. Coastguard patrols sent out to rescue the man were unable to locate the wreckage.

A fishing boat was thrown against the rocks near White's Point when the storm was at its height, and its crew escaped after a desperate struggle in the surf.

Another small boat which had attempted to rescue a floundering craft, was piled against the rocks and battered to bits at White's Point.

There are more than 2,000,000 acres of peanuts under cultivation in America.

PACIFIC SHIPPER WILL ARRIVE ON SUNDAY

Delayed on the Atlantic by heavy weather and now delayed in California by freight, the Purpus Pacific liner Pacific Shipper will not dock here until Sunday, according to an announcement made this morning by King Brothers, local agents. The shipper was originally scheduled to arrive here last Sunday.

Advices from the south later in the week stated that she would not call at San Francisco, but would come direct here from Los Angeles, arriving this evening. Plans have again been changed and the ship will not make port until Sunday, seven days behind schedule.

escaped after a desperate struggle in the surf.

Another small boat which had attempted to rescue a floundering craft, was piled against the rocks and battered to bits at White's Point.

There are more than 2,000,000 acres of peanuts under cultivation in America.

DOMINION OF CANADA REFUNDING LOAN BONDS

MATURING 15th OCTOBER, 1928

THE BANK OF MONTREAL, at all of its Branches in Canada, will accept the above bonds for redemption at maturity.

For the convenience of owners of the bonds, the Bank of Montreal will accept the bonds at any time prior to October 15th, and will make payment either by issuing a cheque or by placing the amount to the owner's credit in the books of the Bank, as may be desired.

Brentwood

Brentwood, Oct. 12.—Mr. and Mrs. H. A. Blakey have returned from spending a few days in Vancouver.

Mr. and Mrs. Geo. Sluggitt and Miss Grace Sluggitt have taken up their residence in Oak Bay for the winter months.

Mrs. L. Overton of Victoria has returned to the city after spending several days with Mr. and Mrs. C. Atkins, Verdier Avenue.

In honor of Premier S. F. Tolmie, the Conservative Association of Ward six will hold a reception on Monday evening, October 15, in the Institute Hall, Brentwood. A short programme and cards have been arranged for and a cordial invitation is extended to residents of Ward six, to meet the new Premier.

The Saanich Board of Trade will hold

a masquerade dance in the Agricultural Hall, Saanichton, on Wednesday, October 24. The proceeds will go to the fund already started for a children's bathing beach on Saanich Arm.

The West Saanich W.I. held their regular monthly meeting in the Institute Hall on Tuesday afternoon with twenty members present. The president, Mrs. E. Rochon, was in the chair and the secretary, Mrs. T. Haddon, read the minutes and correspondence.

A letter regarding the gathering of information of the pioneer settlers of the district for the Provincial Archives will be sent to the Pioneer's Association at Saanichton.

Mrs. Robson, convener of Agriculture committee, wrote regarding the potato fair, which is being held in Vancouver this year. The usual donation of two dollars was voted for the prize list of the women's section of the fair.

The request for bottled fruit or jam for the Solarium met with a splendid

response and about thirty-six jars will be forwarded this week.

The Institute will again undertake the catering of the police ball to be held this year on November 30 in the Agricultural Hall, Saanichton.

The secretary reported on the proposed dressmaking classes and if the required number for a class can be secured, arrangements will be made to start in January. Anyone desiring to join the class can obtain information from the secretary, Mrs. T. Haddon.

Mrs. W. Watt, convener of the school committee, reported that a Halloween masquerade for children would be given on Friday, October 26, in aid of the play shed.

The next sewing meeting of the Institute will be held on Tuesday, October 23, at the home of Mrs. W. O. Wallace.

A bridge party, under the auspices of the Institute, will be given on Tuesday, October 30 at 8.30 p.m. Mrs. Feden and Mrs. Ward were appointed convener for the October card parties. The meeting then adjourned and tea was served by Mrs. L. Thomson and Mrs. W. Watt, hostesses for the day and a social time enjoyed.

Keating

Keating, Oct. 12.—The weekly meeting of the Young People's Club of the South Saanich United Church took place on Monday evening, the vice-president, Stuart Stoddart, being in the chair. The meeting opened with a short devotional period, led by Roy Heyer. In the unavoidable absence of Rev. Mr. Lees, his usual address was read by Miss Christie MacNab and dealt with the books of Exodus, Leviticus and Numbers.

Mr. Stoddart, convener of the World Citizenship committee, introduced Rev. Montague Bruce, president of the Saanich Board of Trade, who gave a very interesting and beneficial address on the "Citizen and the Community." A short discussion was held and the evening was brought to a close with several jolly games. The missionary committee will convene next Monday evening and Rev. Mr. Lees will speak on "Missions in India."

The many friends of Mrs. Hafer, Central Saanich Road, will be pleased to hear that she is progressing favorably in the St. Joseph's Hospital after her recent operation.

LAND VALUES MOVE UPWARD

Alderman R. A. C. Dewar
Tells of Experiences of City
Lands Department

A substantial and steady increase in real estate values in the city is reported by Alderman R. A. C. Dewar, chairman of the lands committee of the City Council. The average price brought for city lands last year was \$503 a lot, while this year the average over the nine-month period has been \$880 a lot.

Sales from January to September were up 125 per cent over the same period last year, stated Alderman Dewar, who gives the following figures: Eighty-one parcels of land have been sold to September 30 this year, for a total of \$71,309, as against seventy-two parcels for \$38,278 for the whole of last year, and \$25,942 for the nine-month period of 1927.

Total receipts in the lands department to September 30 were \$127,588, including approximately \$30,000 from cash sales.

BUILD ON THEM
"The most encouraging feature," states Mr. Dewar, "is that almost all of the land sold will be built on. Many new homes have been erected, and the new electric sub-station will be erected on property purchased from the city."

PAVEMENT AID IS REJECTED

Saanich Spurns Provincial
Offer to Classify Road to
Butchart's Gardens

Reeve Crouch has rejected an offer of the Provincial Public Works Department to classify Limekiln Road, serving Butchart's Gardens, as a secondary highway. The municipal council last night confirmed the action. The Reeve had informed the Government that Saanich has never sought the concession offered and objected to being involved in improvements involving any large charge on the municipality.

EAST AND WEST ROADS
Application has been made by the council for classification of the East and West Saanich Roads as primary highways, but no action has yet been taken by the Provincial Public Works Department.

BEACH DRIVE
As part of Beach Drive, secondary classification has been accorded Ash Road, connecting Gordich Head with Cadboro Bay Road, and this concession was accepted by the council as satisfactory.

HEALTH GUILD MEETING SET

There will be a meeting of the Guild of Health in the Memorial Hall on Tuesday evening, October 16, at 8 o'clock.

On Thursday morning, October 18, at 10.30 o'clock, there will be a service of Holy Communion in the chapel at Cadboro Bay Road, and this concession was accepted by the council as satisfactory.

This is to be a service of thanksgiving to commemorate the first anniversary of the headquarters inception.

—Second Floor, HBC

Celanese Fabrics for Fashionable Afternoon and Evening Frocks

Celanese fabrics look like silk—feel like
silk. When you see it you might well say
it is silk. Experts have said it. Celanese
costs less than silk, is more elastic,

keeps cleaner, cleans more easily and is healthier
to wear. Paris, London and New York have long
claimed its loveliness and now Celanese is made
in Canada. There is a new range for smart attire.
You might almost feel to cut into these exquisite
materials but when you use the

Kut-Eezi Method

It is as though an expert cutter stands over your shoulder and success is
assured. A frock of lovely design fashioned from a lovely fabric will soon
be among your valued possessions.

Celanese Satins at \$2.25 a Yard

A beautiful shimmering Satin for evening dresses. Every graceful line of the evening
frock is emphasized by the beautiful draping qualities of Celanese. Shown in a full
range of colorings, including ivory, pink, peach-beige, lily green, sunlight, orchid, Lucerne,
rose dawn, Mother Goose, almond and black; width 39 inches. Price, per yard **\$2.25**
Use "Kut-Eezi" Pattern No. 10036

Crepe Veraneise and Crepe Satins at \$2.95 a Yard

Celanese, Crepes and Crepe Satins of rich texture and soft draping qualities. Large range
of shadings for afternoon and evening wear; width 39 inches. Price, per yard **\$2.95**
Use "Kut-Eezi" Patterns, Nos. 10013 or 10008

Births, Marriages, Deaths

BORN
FRUDD—At the Bedford Nursing Home, Victoria, on October 11, 1928, to Mr. and Mrs. Frank F. Frudd, a son.

DIED
HERRIOTT—Ther passed away, Thursday, October 11, at the Royal Jubilee Hospital, after a short illness, Edwin Harold Herriott, aged 16 months, son of Mr. and Mrs. Edwin L. R. Herriott, 2919 Maple Street. He is survived by his parents, two sisters and one brother.

Funeral services will be held Saturday afternoon, October 13, at 1:30 o'clock, from the S. J. Curry & Son Funeral Home, 215 E. Smith will officiate and interment will be made in the Royal Oak Burial Park.

DEATHS
SCALES—There passed away at the residence, 24 Olynth Avenue, on Oct. 11, George Scales, born in Rawlford, Yorkshire, and a resident of Victoria for the past nineteen years. He is survived by his widow.

The remains are resting at Hayward's B.C. Funeral Chapel, from where the funeral will take place on Saturday afternoon at 3 o'clock. Rev. T. Keyworth will officiate. Interment will be made in Royal Oak Burial Park.

IN MEMORIAM
Mrs. J. Levy and sons desire to express their thanks for the kind expression of sympathy and beautiful flowers sent during their recent bereavement, also for the many kindnesses shown the late Mr. Levy during his illness.

THE GUMPS—JUST A BUNDLE OF SOBS, WEEPS, AND MOANS

OH, IT'S TOO DREADFUL FOR WORDS—TOM TOM A FUGITIVE FROM THE LAW—BRANDED A THIEF WITH BLOOD HOUNDS ON HIS TRAIL—AND JUST YESTERDAY HE WAS HERE—HIS FOOTSTEP ON THE WALK—HIS SMILE—THE TOUCH OF HIS HAND—AND HIS SOFT WHISPERING VOICE—I KNEW IT WAS TOO GOOD—TOO WONDERFUL TO LAST—I WAS TOO HAPPY—THAT'S ALL—

AND NOW—HE CAN'T SPEAK TO ME—HE CAN'T WRITE TO ME—HE CAN'T SEE ME—HE CAN'T EVEN CALL ME ON THE PHONE TO SAY THAT HE IS SAFE—THEY WILL TRACK HIM DOWN—AND THROW HIM IN A CELL—IF I COULD JUST HELP HIM—OH, TOM!—IF I JUST KNEW YOU WERE SAFE—

AND THEY'RE GOING TO DRAG YOU BACK IN IRONS TOM—MY TOM!

Reg. U. S. Pat. Off., Copyright, 1928, by The Chicago Tribune

DAVIS—In loving memory of our dear Tommy, who passed away October 12, 1927.

One year has passed since that day When dear little Tommy was called away. God took him home, it was his will. Forgive him, No, we never will.

Ever remembered by his Mamma, Daddy and Baby Brother.

WESTMINSTER ABBEY ORIGIN IS SHROUDED IN TRADITION

Edinburgh, Sept. 12—London existed as a British city before the Romans landed under Julius Caesar, and it was a prosperous trading city under the Roman rule, says Thomas Hannon in The Edinburgh Scotsman, adding that

if the words of Tertullian, writing about 200, can be taken literally, there were Christians in Britain in his day. There were certainly three British roller bearings for the wheels, the big Bishop at the Council of Arles in 314.

"As the Scotsman," writes the writer, "traverses the Abbey precincts, views the Houses of Parliament and crosses Westminster Bridge, it is difficult to realize that in those Roman days London was about seven miles away, and that Westminster was a marshy island lying in a great bend of the River Thames as it flows north. The name of the island as we have it is 'Thorney,' but that is Saxon, the second syllable meaning island, and perhaps being akin to the first letter and syllable of 'Island.'"

"Some have said that a church existed on Thorney in the Roman times, and since we know that the martyrdom of St. Alban took place about the year 304, somewhat further north, it is not unlikely, if so, it was a kind of prophesy or 'investigation' of our great Imperial Fane, William of Malmesbury, without referring to such a British church, which must have been a temporary structure, says that St. Mellitus began the Abbey as a church. The Gregorian Mission, under Augustine, the priest-monk, had arrived in Kent in 597, supported by Bertha, the Christian wife of Ethelbert the heathen king, and Kent soon accepted the Gospel.

MEMORIES OF FRANCE.

PLANS OCEAN HOP

Lieutenant-Commander H. C. MacDonald, British pilot, has spent only eighty hours in the air, yet he is planning a transatlantic flight in a light "Gipsy Moth" plane, which is being tested at Harbor Grace, Newfoundland. MacDonald has converted the ship into a single seater to accommodate extra fuel and will fly alone.

A pilgrimage to Rome, had been unable to carry out his intention, and built a great church instead. It was the first church in England built in the Norman style, and the dedication of it was an occasion for a gathering of nobles and clergy from far and near, but the dedication had to be hurried on because of the King's illness on Christmas eve. It took place just in time for his burial in the church on January 6.

"The dedication and the burial are notable—the former marking the church as a national institution, and the latter as making the national institution a burial place of the great ones of the kingdom. And so it has continued from that year, 1065, until the present generation. It was the Confessor's building which first received the name of the West Minster." His tomb was opened thirty-six years afterward by the Abbot Gilbert, who found the body in perfect preservation.

A TEMPLE OF APOLLO

"William Camden, the historian of the reign of James VI, has a great deal of information about the Abbey. In a small space in his Britannia Camden was headmaster of Westminster School, and therefore especially interested in the history of the Abbey. He gives the tradition that a temple of Apollo once stood on the site, and that it was thrown down by an earthquake in the reign of Antoninus Plus—that is, before the year 161; and that Sebert built the church to St. Peter out of the ruins of the temple. He states that this church was destroyed by the Danes and rebuilt by St. Dunstan, who was successively Bishop of London and Archbishop of Canterbury, dying in 988.

ONLY TWO WAYS FOR FALSE TEETH

Two simple, trouble-less ways of getting your false teeth spotless and germ-free every day. And neither way can harm the denture.

WHILE YOU SLEEP. Last thing at night, add half-a-teaspoonful of Milton to the glass or cup of water in which you leave your false teeth. Rinse them in cold water in the morning.

OR WHILE YOU DRESS. Put your plate, on rising, into a glass containing equal parts of Milton and warm water. When you're dressed, rinse and wipe it.

Either way your false teeth come out cleaner than you've ever seen them. Hygienically cleaner also—ask your dentist—because every germ's been killed. 35¢, 65¢, and \$1 a bottle—from your dealer.

LEAVE THEM IN MILTON WHILE YOU SLEEP OR WHILE YOU DRESS

English Herbal Dispensary Limited 1239 Davie, Vancouver, B.C.

Canada's Oldest Herbal Dispensary

termment will be made in the Royal Oak Burial Park.

At the family residence, 24 Olympian Avenue, yesterday, the death occurred of George Scates, a native of Rawcliffe, Yorkshire, England, and a resident of Victoria for the last nineteen years. He is survived by his widow, Mrs. Scates, and three sons and three daughters to mourn her loss. The funeral will be held from the B.C. Funeral Chapel Saturday, at 10:45. Rev. Dr. John Campbell officiating. Interment will be made at Royal Oak Burial Park.

At St. Joseph's Hospital yesterday, Elsie Louise Calder, beloved wife of George Calder, of 82 San Juan Avenue, passed away, aged fifty-six years. She was born in Kent, England, and had resided in this city thirty years, leaving her husband, three sons and three daughters to mourn her loss. The funeral will be held from the B.C. Funeral Chapel Saturday, at 10:45. Rev. Dr. John Campbell officiating. Interment will be made at Royal Oak Burial Park.

COURT HEARS LIQUOR CASE

Montague Simmons of Monte Carlo Pleads Not Guilty in Provincial Court

Montague Simmons of Monte Carlo Inn, charged in Provincial Police Court this morning with keeping intoxicating liquor on premises where non-intoxicating drinks were sold, was remanded following hearing of the prosecution evidence.

Through counsel, Stuart Henderson, Mr. Simmons pleaded not guilty to the charge.

Provincial police constables who took part in a raid on the premises early on the morning of September 28, gave evidence regarding the finding of liquor on the premises. Several bottles and flasks said to have been found there were exhibited in court.

You may look up and down the street for some time to find just the sink, stove, extra radiator or other used article, and yet it may be advertised any evening under the "For Sale" classifications in the "Want Ad" section of The Times. Watch these little "money savers" and they'll put money in your purse.

NEWS IN BRIEF

Two motorists paid fines of \$5 each in the City Police Court this morning for failing to stop at arterial highway intersections.

Members of the Pirates rugby team will hold a practice at the Willows grounds to-morrow afternoon at 3:15 o'clock.

I. W. Aude, manager of the Crystal Garden, has invited all carriers of The Victoria Daily Times to the Garden for a swim to-morrow night.

Premier Tolmie will be in Vancouver to-day. He will give an address to the Vancouver Electrical Club dealing with the subject of water powers in the Province.

The following players will represent the Victoria City First Division soccer team to-morrow: Bridges, Glancy, Marston, Stoffer, Preston, McBay, Gould, E. Bisset, C. Bisset, Burns, Hanks, Cummings, A. Cameron and Ross.

The first of the harvest festival services of St. Mary's Church, Oak Bay, will be held to-night at 8 o'clock. Rev. T. M. Hughes, rector of Sidney, will be the preacher. The anthem, "O Lord, How Manifold Are Thy Works," Barnby will be sung.

The next examination for assayers in the Province has been set for October 22 and on such following days as are necessary. Applications will be received to take the examination by D. E. Whittaker, of the assay office, Department of Mines, Victoria.

Nine land sales, netting \$1,224, were last night approved by the Municipal Council. Three properties were sold from reverted lands holdings and six items in the last sale transferred to the tax sale upset price.

A charge against C. J. Graves of driving to the common danger and a counter charge laid against John Ewing as the result of an accident last Sunday at the corner of Yimle Avenue and Douglas Street were adjourned in City Police Court this morning until next Tuesday.

This week's British Columbia Gazette contains notice of the constituting of the Larkin Waterworks District, under the statutes for the purpose of establishing of works for the carrying of water for irrigation purposes within the district so constituted. The area is located in the Osoyoos Division of Yale District.

Registration of Victoria householders and licensees is proceeding at the office of the City Clerk. Last through special commissioners, with 700 names already entered on the voters' list. Property owners, who are registered automatically, will contribute some 10,000 names to the list. The list will be completed before the close of the month, and is expected to contain 12,000 names this year.

A cheque for \$200, its share of boulevard work and seedling planted for the north side of Belleville Street between Blanshard and Douglas Streets, was handed by I. W. Aude of the Crystal Garden to the city treasurer, Mr. J. H. Bisset, at the city hall this morning, permission being granted on the assumption of part of the cost by the Crystal Garden.

Improvement of George Road at the Maple Tree Bend will be discussed by the Sania Council with the Provincial Public Works Department. Two years ago the roadway was doubled by expropriation of property abutting on the north side. The British Columbia Automobile Association asked elimination of the central strip between the two road surfaces, or alternatively, the widening of the northern paving and closure of the old roadway.

The Victoria Riding Academy last night asked the Sania Council for permission to construct riding paths beside certain highways. The paths would lead through the sylvan district adjacent to Cadboro Bay and would include Cadboro Bay Road, Road, Gordon Head Road and Arbutus Road. Councilors suggested that pedestrians would suffer interference and access to property would be obstructed. The request was taken pending report by Engineer Allan.

The Sania Fire Department responded to thirty-three calls in August and September. Chief Little last night reported to the Sania Council. Grass and bush fires caused twenty-six calls, four calls were caused by residences, two barn-fires were attended, and one run was caused by burning of an automobile. The Crown Avenue residence of Mr. Wells was on fire twice, the second outbreak being started by Chief Little to be due to arson. Property loss was placed at \$1,150 during the two months.

GUN TROPHIES ARE WON HERE

Fifth Coast Brigade, C.A., Score Fresh Triumphs in National Competition

For the fourth successive year a Victoria battery has carried off the Governor-General's Trophy, the highest award for all-round general efficiency open to competition by Canadian artillery units all over Canada. The winners of the trophy this year are the 56th Heavy Battery of the Fifth C.A. Coast Brigade, C.A., commanded by Major J. B. Clearhough, M.C.

Lieut.-Col. J. C. Harris, officer commanding the brigade, was notified yesterday of the success of the 56th Battery in winning the Governor-General's Trophy and also the Turnbull Shield, the latter for first place in gun practice.

The Hugh-Black Cup, for second place in gun practice, was taken by the 56th Heavy Battery of the same brigade, commanded by Major M. Kirkpatrick-Crockett, and also comes to Victoria.

The Lansdowne Trophy and the Gwynne Cup were won by Quebec batteries this year.

The Fifth B.C. Coast Brigade now holds the record among Canadian batteries for the number of times its batteries have won the Governor-General's Trophy. In 1925-26 it was taken by the 56th Battery, and for the last two years by the 56th.

Officers and personnel of the brigade, rejoicing over their success, are grateful to the permanent force units here for training and the many courtesies received. It is stated.

NORTH AMERICA POSSIBILITIES BEST ANYWHERE

Bishop O'Donnell Returns From Extensive Tour of Australia and Asia

Eucharistic Congress in Sydney One of Most Striking Ever Held, He Says

Convinced that nowhere else in the world are such great possibilities offered as in North America, Bishop O'Donnell, D.D., Bishop of Victoria, returned to this city last evening aboard the Anarangi after attending the Eucharistic Congress in Sydney. He also traveled extensively in Asia. Bishop O'Donnell said that everywhere he went North America seemed to be associated with the material wealth and industrial power of the United States. The note was predominant everywhere, and people whom he met on his long trip from Europe and Africa seemed to think of this continent along the same lines.

"For climate and general living conditions I do not think this continent can be eclipsed," he said. "There are wonderful possibilities in North America, that can be found nowhere else in the world."

GONE THREE MONTHS

Bishop O'Donnell left Victoria on July 2 on the American Mail liner President Lincoln, and since that time has traveled extensively in Japan, China, the Philippine Islands, Java and Australia, returning by way of New Zealand, Suva and Honolulu.

Bishop O'Donnell was particularly impressed with conditions in Japan. The aggressiveness of the people in rebuilding great cities after the disastrous earthquake a few years ago showed them to be a nation that is prepared to fight, and must be met on equal terms. Great buildings have been erected in Tokyo and Yokohama for educational and research purposes, he said.

SUPERSTITION GONE

Bishop O'Donnell noted the almost entire absence of old time superstitions in the East. The superstitions of the past, which were so prevalent in the West, have been replaced by the scientific method of the present.

DROWNSY CHINA

China, said His Lordship, seemed to be a drowsy country, teeming with millions of hard working people who had no idea of comfort or the modern world. The people were poor, and seemed to be content with their lot. Political conditions there, however, seemed to be quiet at present, and if things continued so for a few months longer he thought everything would come out all right.

HAPPY PHILIPPINES

Bishop O'Donnell was particularly impressed with the Philippine Islands. When we got there, he said, "we felt that we were once more in a Christian country. Wonderful buildings are there along occidental lines and the people seem to be happy and contented."

FROM JAPAN

From Japan, Bishop O'Donnell went to Australia, a two-weeks' voyage on a very fine Dutch liner. He was in Australia several weeks, during which time he attended the Eucharistic Congress in Sydney. The religious atmosphere of the congress this year impressed His Lordship much more than did that of Chicago two years ago.

GLAD TO BE BACK

Bishop O'Donnell looks exceedingly well after his long trip. He is glad to be back in Victoria, convinced that there is no other city in the world like it. He considers it one of the finest places he has ever visited.

LOCAL HOCKEY BOSS NAMED

Joe Smith, Formerly With Vancouver Monarchs, to Pilot Victoria Club

Joe Smith, formerly manager of the Vancouver Monarchs amateur hockey team, will handle the destinies of the Victoria team in the Pacific Coast Hockey League, according to an announcement made last night.

Smith arrived in Victoria yesterday afternoon and, following a conference with Stanley Patrick, came to terms last night at 8 o'clock. Smith returned to Vancouver this afternoon, but will come back here to take over his new position about November 1.

GOOD SPORTSMAN

Smith has held a prominent position in athletics in Vancouver, having taken a keen interest in both English and Canadian rugby.

Although not a star player himself, Smith knows hockey and should make a good pilot for the Victoria club. He had great success in rugby, and was very popular with Victoria fans last season and no doubt his appointment will be welcomed by local hockey lovers.

NANAIMO PIONEER PASSES SUDDENLY

Special to The Times

Nanaimo, Oct. 12.—Charles Rawlinson, one of the most popular businessmen of Nanaimo, collapsed on the sidewalk of Selby Street and died at noon today, when walking home to luncheon.

The deceased was manager of the grocery department of David Spencer Limited, having held that position for more than four years. Previously he had been in business for many years under the firm name of Rawlinson & Glaholm.

A was prominent in fraternal circles, having been Past Grand Chancellor of the Knights of Pythias, Past President and until recently secretary of the Nanaimo Chapter of the Order of Eagles, and a member of the Nanaimo Canadian Club.

He is survived by a widow, one son, Charles of Vancouver, and four daughters, Mrs. M. Pim and Mrs. W. Burnett of Nanaimo; Mrs. C. L. Cole of Oakland, Cal., and Mrs. W. B. Perkin of Los Angeles, Cal.

SEARCH MADE FOR LOCAL BOY

John Thomas, 744 Discovery Street, Reported Missing on West Coast

John Thomas, 744 Discovery Street, is believed to have disappeared in Barkley Sound, where he was engaged in fishing, according to messages received by the Provincial Police headquarters here.

A police boat left Port Alberni yesterday afternoon for Kildonan, where Thomas is understood to have been engaged in fishing. He was last heard of when he left Kildonan yesterday night on a fishing boat bound for Port Alberni. An investigation was started but the fishing boat had left for the return to Kildonan before the police could be reached.

Inspector T. W. S. Parsons, who was in Port Alberni at the time, is in charge of the search for Thomas, who is accompanied by Corporal Woods and the pilot of the police boat.

DR. PLASKETT RECOVERED IN HEALTH BY TRIP

Canada's Chief Astronomer Visited Son on Way Back From Europe

Victorians who saw Dr. J. S. Plaskett, director of the Dominion Astrophysical Observatory, walk off the boat yesterday expressed their pleasure at evidence he gave of recovery in health. Dr. Plaskett was quite ill when he left here in June. He was able to get around only with the aid of crutches. Now he has returned with no need of crutches.

"We didn't forget them, but I was recovered to such an extent that I was able to discard them in Europe about five weeks ago," Dr. Plaskett said.

On his way home Dr. Plaskett and Mrs. Plaskett, who made the trip with him, visited their son, Professor Harry Plaskett, formerly of Victoria, and now head of the astronomical department at Harvard University, Cambridge.

DISCUSS WAVE LENGTHS

Dr. Plaskett went to Europe as the official representative of Canada at the meeting of the International Astronomical Union at Leyden, Holland, where proposals for the standardizing of wave lengths of terrestrial elements were discussed. Final steps were also taken for the standardizing of astronomical time now synchronized with ordinary civil time. This follows the change made in 1925 when astronomical time was made to start at midnight instead of at noon.

After Leyden, Dr. and Mrs. Plaskett were guests at the meeting of the Astronomische Gesellschaft at Heidelberg, Germany, along with a number of Canadians, Americans, English and French.

LOCAL FIRMS MAY TENDER ON NEW PLANT

Cold Storage Specifications Modified Week Ago at City's Request

H. G. Brown Says Island Firms to Have Every Preference Possible

All Victoria and Vancouver Island firms will be given an equal opportunity to tender on the contracts for the Victoria Cold Storage and Terminal Warehouse Company's plant at Ogden Point, it was stated by H. G. Brown, president, to-day, in commenting on the recommendation of the Victoria Chamber of Commerce as to the specifications.

CITY ASKED WEEK AGO

The point had been taken up with him by City officials a week ago, stated Mr. Brown, and he had agreed to modify the wording of the specifications to meet the request that local firms be given an equal opportunity to tender all through the work. Roofing, cement and insulation, particularly specified, will now be called for in the manner as to permit of local bids on these phases of the work, it is understood.

It had been his intention to specify standards and qualities and to give every preference to local firms, wherever that was found possible, explained Mr. Brown.

HUNTING TRIP PROVES COSTLY

At Sooke, Victoria Man Mistakes Tame Deer For Spike Bucks; Fined \$100

Alex Mackenzie, 1258 Basil Street, killed two deer last Sunday in the Sooke River area. It was a costly shooting expedition for Mr. Mackenzie, however, for the animals he shot were tame deer under one year of age, and the hunter was fined \$50 in the Provincial Police Court this morning for killing each animal.

The deer were pets of Mrs. George Weiler and were wandering around some distance from the cabin at which they were staying when shot by Mr. Mackenzie. They had bells on their necks as a warning for hunters, but in this case the warning was not sufficient.

PICKED OFF TWO

Represented in court by H. J. Davis, Mr. Mackenzie pleaded guilty to the charge. In his evidence he stated he had seen several does before spotting what he thought was a spike buck, some distance away. He was watching the animal for some minutes before finally deciding to shoot. He shot twice before the deer fell. Then it seemed to get up and he shot again. Upon coming up to the animal he was greatly surprised to find he had killed two, he said. When he inspected them and discovered the bells on their necks he knew his mistake and left them there.

Richard Gidley, game warden for the district, stated that upon making inquiries at Mr. Mackenzie's house, the accused had readily admitted the killing. He had not made any effort to conceal it.

Donald Gallie testified to the good character of the accused, whom he said he had known for sixteen years.

Mr. Davis asked that his honor impose the minimum penalty of \$25 per animal under the circumstances.

Staff Sergeant P. B. Butler of the Provincial Police, prosecuted. He urged there had been a flagrant breaking of the regulation and suggested a maximum fine be imposed.

BE CAREFUL

In imposing the fine of \$50 per animal, Magistrate George Joy stressed the need of hunters to carefully see what they were shooting at in the woods.

One of the deer was exhibited in court and was confiscated.

SOCIETY TO HOLD BIG FLOWER SHOW

More Competitions Arranged For Annual Spring Exhibition on April 26

The decision to add a competition for greenhouse plants to the list of contests in the Spring Garden Show to be held by the Vancouver Island Horticultural Society on April 26 and 27, has been reached by the executive committee of the association.

The Macoun Trophy for the best collection of pressed flowers will also be one of the features of the early display, and will doubtless draw a great number of entries. The floor-space allotted to district exhibits will be increased in the coming show, and will give the exhibitors a better chance to arrange their displays.

A gold medal will be presented to the winner of a new contest which is being arranged by the society, and the person sending in the best design for the medal will also receive a prize.

E. W. White of the Department of Agriculture, suggests that the garden competition, which was won by A. Tyrrell, 151 Beach Drive this year, be changed so that Up-island gardeners, who were forced to raise their produce without as much water as city gardeners used, might have a more equal chance to win.

Walter Johnson May Be Manager Of Washington

Washington, Oct. 12.—Possibility of Walter Johnson returning to Washington as manager of this city's American League baseball team aroused the interest of fans here today, but Olan Griffith, president of the club, said there was nothing definite to report. Johnson's contract with Newark of the International League still has some time to run.

CRAIG

The Piano With A Reputation

THE "CRAIG" is a piano you'll be proud to own. It has earned great prestige throughout the Dominion for its dependable, sweet tone and very remarkable all 'round value.

We invite you to see the newest "Craig" models now in our music rooms. Priced on convenient terms at

CHAMBER HEARS TORONTO MAYOR SPECIAL

Talks of Spectacular Growth of Eastern City; Amazed With West

Declaring he would go back to Toronto carrying a message of "the wonderful country, the wonderful people, the wonderful climate and the wonderful time" he had had in the West and in Victoria particularly, Mayor Samuel McBride of Toronto today, in an address before the directors of the Chamber of Commerce, gave an inspiring talk on optimism for Canada.

Two things which had impressed him most in Victoria were the climate and the fine quality of the English language as spoken here, said Mayor McBride. The streets, the buildings and the wonderful opportunities for people who would work, had also been forcibly impressed upon his mind.

TELLS OF TORONTO

Mayor McBride went on to tell of the growth of Toronto during the last twenty-five years, quoting figures on the municipally-owned utilities similar to those published in his interview in The Times yesterday. He emphasized some of the problems which the city had dealt with successfully, speaking particularly of the oil stations, which were under the hand of the city.

"What we are after is more optimism and less pessimism; more boosters and less knockers," he said.

The chief need of the West was undoubtedly population, Mayor McBride declared. He hoped the people who came here would be English, Irish and Scotch. They were the people who would make the country progress, he said.

B. C. Nicholas proposed a vote of thanks to Mayor McBride.

How many people you know who end their colds with Aspirin? And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada.

ASPIRIN

Oak Bay Thinks Population Bigger

A census of Oak Bay will be taken within the municipality shortly to determine the exact population of the district. At present the municipality is rated as having a population of 4,500, but R. F. Blandy, municipal clerk, said that he was sure there were

at least 5,100 people residing in Oak Bay at the present time.

A Mending Thought

Tompkins (meekly)—My dear, did you read about the man who was shot at by a burglar, and whose life was saved by a button the bullet struck? Mrs. Tompkins—Well, what of it? Tompkins—Nothing, my dear—only the button must have been on.

LAKE ROAD COST SHOCKS COUNCIL

Impassable Rock Work Has
Already Cost \$3,000; Must
Spend \$1,500 More

"Too much money has been expended on Lake Road," protested Councillor Stubbs of Ward Four, when the Saanich Council was last night informed by Engineer Allan that the cost of the halted work has been \$3,800. "How can I explain to the ratepayers of the ward? It will cost another \$1,500 to complete. I understood the work had cost only \$2,700 and would only cost \$2,500 to complete," Councillor Stubbs said.

The work is well done, and will be worth the cost, but where is the money to come from?" he said.
AN INCREASED GRANT
An increased grant being mooted, Councillor Watson objected: "I have a fairly long memory, this sort of thing has happened every year in Ward Four. Always the councillor comes to us and pleads that incomplete work in hand will be lost if extra money is not spent. It is very ingenious."

Councillor Stubbs protested, declaring his years of office had been marked by adherence to his ward appropriations.
SUBSTANTIAL FUNDS
Road appropriations this year were based on \$7,000 per ward, with credit for unexpended balances remaining from 1927 and additional grants for special work.
The funds available this year for road work in each ward were as follows: Ward One, \$9,407; Ward Two, \$8,055; Ward Three, \$9,992; Ward Four, \$10,117; Ward Five, \$9,608; Ward Six, \$9,684; Ward Seven, \$7,987.
The council accepted the advice of Reeve Crouch and voted additional grants of \$300 each to Wards One, Two, Three and Five, \$1,500 to Ward Four, of which \$1,000 is to be expended on Lake Road, \$1,000 to Ward Six and \$750 to Ward Seven.
Road improvement expenditures for the year will amount to \$70,085, the largest sum taken from revenue since Saanich was organized as a municipality.

CAMPAIGN OPENS ON BOOTLEGGERS

Thousands of Dollars Collected in Province as Police Start Drive

Plain Clothes Operators Are Aiding Police in Securing Evidence

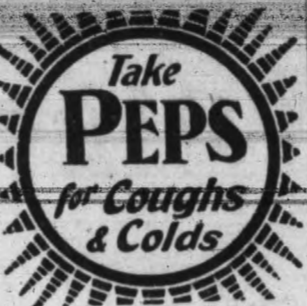

Reports from different parts of British Columbia in the last few days point to a province-wide campaign, with provincial police co-operating with city and municipal police, directed against the operations of bootleggers.
Drives on alleged bootleggers which opened on Vancouver Island are being waged also on the mainland and in one week in New Denver Stipendiary Magistrate Ronald Hewat, of Kamloops, imposed fines amounting to over \$9,000.

SIXTEEN CAUGHT
Reports from West Kootenay district indicate that sixteen alleged bootleggers will face charges there this week. In almost all the cases the police are said to have secured the evidence through plain clothes officers of the provincial force acting in conjunction with the Liquor Control Board. Six trials are listed before Magistrate Carleton or Magistrate Hewat in Slokan City.
Provincial police at Nelson collected \$650 in fines Monday from two Salmo residents, in which cases evidence was secured by liquor operatives of the Liquor Act enforcement branch.

MEMORIAL AVENUE PLAN CRITICIZED

Saanich Council Fears Burden of Maintaining Completed Scheme

Unless arrangements are made for substantial aid in maintenance of Memorial Avenue, the plan proposed for completion of the Saanich division. The Saanich Council last night united in raising objections to further work, unless guaranteed against undue annual charges.
Proposals for a one-mile extension of Memorial Avenue, with \$1,500 provided equally by the Chamber of Commerce, the Victoria City Council and the Saanich Council, were criticized. Reeve Crouch feared the annual maintenance of three miles would be burdensome.
Without dissent the councillors upheld the views of the Reeve, Councillor Hagan remarking: "What the Reeve told the Chamber of Commerce as reported in the press was fine, but did not go far enough."

Councillor Watson recalled that he had consistently opposed the Memorial Avenue project when first advanced. Reeve Crouch pointed out that Saanich could have won considerable support for the avenue had not already established a practical memorial to war heroes by building the Health Centre.
"There was no understanding before the avenue was started. The committee just went ahead," said Councillor Hagan.
Councillor Watson advised that Saanich limit its efforts to proper maintenance of the two miles already constructed, with replacement of scores of trees which have died. He considered that a district commission should have charge of such undertakings.
The Chamber of Commerce will be asked to send delegates to the next meeting of the Victoria-Saanich beaches and parks committee to discuss maintenance problems.

CANNOT CREATE ARTERIAL WAYS

Municipalities Must Await Provincial Action, Saanich Finds

Municipalities have no power to establish arterial highways, the Saanich Council was last night informed by the municipal solicitors.
While the council has authority to erect signals warning traffic to stop before entering or crossing arterial roads, power to set up such privileged ways is vested in the Lieutenant-Governor-in-Council.
The council deferred action upon a recommendation from the police commission favoring arterial highways, and will seek the co-operation of the Provincial Government.
"Do you ever work in the garden?" inquired a friend of a financier.
"Well," remarked the latter, reflectively, "I sometimes water my stocks."

Our 55th Anniversary Values In Men's Clothing Saturday

Men's Fall Hats

Anniversary Values
Saturday

Men's English Fur-Felt Hats, off lines, in several popular colors and shapes. On sale Saturday, each, **\$2.95**

SIDE GLANCES—By George Clark

Far from the city's crowds.

To-morrow's Horoscope

SATURDAY, OCTOBER 13, 1928
After early morning hours kindly stars rule this day, according to astrology. Benefic aspects are powerful.

Even though it is the thirteenth labor should benefit, already, for there will be some time, owing to the adverse aspect of Mercury. An undertone of suspicion may mark many phases of public opinion at this time when there is a sign that is supposed to encourage intrigue and deceit. The direction of the stars is not favorable to domestic faith and loyalty. Many scandals are forecast, but they will indicate the peak of martial woes in America.

While this planetary government continues love is supposed to triumph over necessary considerations in courtship, which is to turn back to old-time ideals as the years pass. Increase of birthrate is forecast and boys will outnumber girls. As it is considered for the inequality of the sexes, girls are to be exceedingly beautiful and clever who start life in the clothing weeks of 1929. Persons whose birthdate it is may reach a crisis in their lives this year which will be eventful and will bring new friends.

These subjects of Virgo with Mercury as their ruling planet should avoid outbursts of temperance. Children born on this day probably will have a career in the literary or artistic line. These Virgo folk usually are most popular and many reach the heights through their extraordinary talents.

Canadian Public Health Association Discusses Food Problems

Seventeenth Annual Convention Being Held in Winnipeg

Winnipeg, Oct. 12.—Problems of health, especially those that affect the well-being of school children, were discussed by various speakers at the opening session here yesterday of the Canadian Public Health Association's seventeenth annual convention.

FOR NEW "PEP" ENERGY AND VIGOR TRY ERBAC--TO-DAY

Money Back If Not Satisfied After Using 30 Day Treatment to Prove Amazing Value.

Double Strength Erbac in convenient tablet form is a special private formula endorsed by Doctors—and praised by thousands—who have proved its value in cases of "chronic weakness," nerve exhaustion, dependency; lack of ambition, endurance and the ability to accomplish things you would like to do.

Don't confuse Double Strength Erbac with ordinary tonics or "so-called" body builders! Remember it is a special private formula designed for a particular purpose—to build up life-giving, age-defying vitality and abundant nerve force.

Here's a simple test worth trying! You know how you feel and what your condition really is today. Now go to your druggist and get a 30 day Guaranteed Double Strength Erbac treatment, mark the date on the calendar and start using the tablets at once. At the end of 10 days, make a careful note of your condition, take a look in the mirror, try your strength and endurance—then at the end of 20 days "check up" again, and if you are not fully satisfied that you are greatly improved, take the empty Erbac box back to the druggist and get your money!

NOTICE TO READER: Above money-back guarantee is absolutely genuine and legal. Manufacturers are responsible.

AT THE THEATRES

THOMAS MEIGHAN IN "THE RACKET" AT THE CAPITOL

How a game of golf resulted in a new combination between producer and star was told recently by Thomas Meighan, star of "The Racket," a melodrama of the modern underworld, which opened yesterday at the Capitol Theatre.

Howard Hughes, youthful president of Caddo Productions, and Thomas Meighan were introduced on a golf course, and it was only natural that their conversation turned ultimately to the film. But the thought of a producing alliance never entered their heads at the outset, according to Meighan.

On the stage at the Capitol Theatre for the balance of the week the management are presenting Chappelle and Raynor's "The Phantom of the Opera," a novelty presentation. Dorothy Lewis, contralto, in song selections, and Bert Bennett and his guitar, along with Harold Bechtel, the singing M.C., and the concert orchestra under the baton of Al Prescott.

STORY OF NEW YORK SLUMS AT THE DOMINION

The most interesting picture yet filmed about the most interesting spot in the most interesting city in the world.

Thus reviewers have characterized John Gilbert's new starring picture, "Four Walls," a story of East Side gangsters in the city of New York which opened yesterday at the Dominion Theatre, and they are not far wrong.

Among the dozens of "crook" pictures filmed during the past few years, "Four Walls" will stand out as something new and undoubtedly different. Director William Nigh has made the characters appear real and human.

Gilbert contributes a characterization which tops anything he has displayed in the way of acting ability since "The Big Parade." He makes "Benny Horowitz" a gangster, a real live personality that struggles, suffers and finally conquers in a manner that will grip the heartstrings of every audience in the country.

GREAT FOREST FIRE FEATURE AT COLUMBIA

A spectacular forest fire, "Thunder," the Marvel Dog, and scenic backgrounds of majestic beauty are a few of the high spots of the latest Gotham production, "The Phantom of the Forest," which is the present headliner at the Columbia Theatre.

In this picture Thunder, more so than ever, demonstrates his right to his title, "The Marvel Dog," as this wonderful animal displays a degree of animal intelligence—that is nothing short of phenomenal.

CUTLERS HEAR BRITISH PREMIER

Baldwin Speaks of British Industry's Place in World of Commerce

Sheffield, Eng., Oct. 12 (Canadian Press Cable)—Premier Stanley Baldwin was one of a number of distinguished guests and the principal speaker at the famous Cutlery Fair, an annual event since its origination 300 years ago by members of the Cutlery Guild of Sheffield.

Premier Baldwin carefully abstained from a discussion of controversial political and industrial matters, but nevertheless made the best use of the British Trades Union Congress credit for endeavoring to purge its movement of seditious elements. He said that since the general strike the trades union leaders had realized a policy of industrial warfare was dangerous to those they represented as well as to the nation. At the same time, he added, the employers must not forget their tremendous responsibilities.

"Employers who neglect the interests of their employees are guilty of a business manslaughter," he warned, "they are fostering distrust which must lead to industrial unrest." He warned of HIGHER STANDARDS.

Discussing the need for raising the standard necessary for qualification as a business manager, Premier Baldwin said he looked forward to the day when there would be some qualifying test for directors, "and when guinea pigs will be relegated to their proper places—in a museum."

Premier Baldwin proceeded by questioning whether "our present day organization is the best adapted to carry us through the fight with the increasingly severe foreign competition—a fight which will largely be decided one way or another within the next decade or twenty years."

He said he doubted if anyone would maintain the present confused system of small organizations and small workshops was the best, even to meet modern competition. The Premier proposed the question of whether with the larger capital resources with production on a larger scale, it might not be easier to fight in the neutral markets of the world.

WILLING TO HELP

The Government would help industry to the utmost, Premier Baldwin declared, but he ruled out all thought of nationalization of industry by the Government. The Government would try to reduce industry's burdens, he said, but the question within which economies could be effected was limited because the bulk of the national expenditure consisted of charges which were statutory and obligatory and which could not be altered except by repealing them and reversing the whole policy which had been followed by successive governments in the fields of beneficial social reform.

"It is futile to expect from the Government any large reduction in taxation by means of economies alone," he asserted. "If taxation is to be reduced the national revenue should be increased by restoring prosperity to industry. Then reduce taxation and a better standard of life will follow for all."

QUEBEC CLAIMS WATERPOWERS

Argument Against Federal Control Heard By Supreme Court of Canada

Ottawa, Oct. 12.—Quebec Province sharply took issue with the Supreme Court of Canada here yesterday afternoon with the claims of the Dominion over control of waterpowers. Joining Ontario in the fight for provincial authority, immediately following the conclusion of presentation of the constitution of that province by W. N. Tilley, K.C., Quebec, through Eugene Lafleur, K.C., opened its argument.

In brief, Quebec contended that: 1. Ownership of the banks of rivers by the Dominion in some of the provinces, including Ontario, does not give Federal authority over waterpowers created by Dominion works on provincial rivers.

CLAIMS ALL WATERPOWERS 2. Quebec, holding the title to both the bed and banks of the St. Lawrence and other rivers in that province, controls any waterpowers created, other than navigation requirements.

3. The province owns waterpowers created by extensions, enlargements or replacements of canals by the Dominion since 1867 which are not required for navigation purposes.

4. The Dominion can only take or expropriate provincial property to the extent of the absolute requirements of the Dominion and no further. Federal power of the Dominion to take provincial property cannot be exercised without compensation.

DECISIONS BY COURTS

5. The courts can decide whether incidental power of the Dominion to take provincial property is properly exercised.

6. The Dominion cannot recoup its work for construction of any works by arbitrarily taking away revenues from the use of surplus waters.

7. The Dominion cannot construct a dam across a provincial or interprovincial river purely for power purposes.

8. Quebec admits that public right of navigation extends over rivers in Quebec under Quebec law.

TREATY QUESTIONS "Hypothetical, vague and remote" were the terms used by Mr. Lafleur in declaring the impossibility of properly discussing the question of control of waterpowers created by any works constructed under a treaty with the United States for deepening the St. Lawrence.

The court was asked to decide what would happen under such a possible treaty.

Touching upon the question of compensation for provincial property taken by the Dominion, Mr. Lafleur said the provinces must be compensated.

"If you should reach any other conclusion," Mr. Lafleur observed, "that would disturb the carefully adjusted division of provincial and Dominion assets. It would enable one of the most important natural resources of the Province of Quebec, its waterpowers, to be taken without compensation, and I think there is no case that can be cited that justifies such a proposition."

Acid Stomach Indigestion

Dyspepsia Gastritis Stomach Ulcers

THE POLLY OF NEGLECT

Stomach troubles are progressive. They seldom cure themselves, but instead get constantly worse. It is the worst of diseases for it affects the first simple steps of eating, drinking, and sleeping.

These first symptoms may for a time be relieved by some which helps to neutralize the acid or by potent pills which relieve pain by artificially digesting the sour food. But they only give a false security and soon lose effect. The occasional after-dinner distress becomes chronic dyspepsia. The digestive system is particularly liable to gastritis and gastric ulcers in the stomach are only common forerunners of stomach cancers and death.

For this reason, physicians place much importance upon keeping the stomach free from harmful excess acid. An ideal method of treatment is by the regular daily use of pure Bismarck-Mann—either powder or tablets—which taken after meals in a little water neutralizes acidity, prevents its formation and keeps the stomach strong and healthy, and digestion perfect. Any drug store can supply Bismarck-Mann and stomach sufferers are advised to try it.

Where To Go To-night

Capitol—"The Racket."
Coliseum—"The Phantom of the Opera."
Dominion—"Four Walls."
Playhouse—"Alias the Deacon."
Variety—"Out All Night."

"SORRELL AND SON" ATTRACTION NOW AT THE COLISEUM

Warren Deering's great novel, "Sorrell and Son," read by millions in Canada, the United States and Great Britain, and showing for the second time in Victoria, is the feature attraction at the Coliseum Theatre all this week.

The story is one of the finest and most "unique" ever put on the screen and portrays the great love of a returned army captain has for his son, after his wife leaves him sick and penniless. Captain Sorrell, played by H. B. Warner, works and slaves for years and finally dies for the sake of his beloved son.

On the stage this week is a splendid little comedy hit, "Wanted, Some Parents," with all the Coliseum stage favorites. Miss Dorothy Raymond is exceptionally well cast as the old maid boarding house mistress. This fine double bill will show to-night and tomorrow night with a matinee to-morrow afternoon.

SPLENDID CAST IN PICTURE AT THE PLAYHOUSE

In "The Sensation Seekers," the Universal-Jewel production, now showing at the Playhouse Theatre, Huntley Gordon is playing his first "heavy" role. Billy Dove co-stars with him while a well-chosen supporting cast includes Raymond Bloomer, Peggy Montgomery, Phillips Smalley, Edith York, Clarence Thompson and Nora Cecil. Lois Weber directed the picture.

D. G. Mackenzie New Manitoba Minister

Winnipeg, Oct. 12.—D. G. Mackenzie of Brandon will enter the Bracken Government as Minister of Natural Resources and will be sworn in to office to-day by Lieutenant-Governor Burrows.

Mr. Mackenzie, for two years western representative on the Advisory Tariff and Taxation Board of Canada, will seek election in the constituency of Lansdowne, where a by-election, necessitated by the retirement of T. C. Norris, to accept a position on the Board of Railway Commissioners, will be held shortly.

He will be opposed by Dr. H. E. Hicks, Conservative nominee.

Cross-examining Counsel: "Don't you think you are straining a point in your explanation?"

Witness: "Possibly I am, but you often have to strain things to make them clear."

Bladder Troubles Bother Many Past 40

Seven Out of Ten Are Victims But Writer Tells How "Uratabs" Bring Swift, Amazing Relief With Renewed Vital Force

"No one knows better than I the horror of joyless days and sleepless nights. There have been times when I felt hopeless and helpless—and when my weakness caused me the most intense humiliation. Only those who have gone through such tortures can possibly realize my great satisfaction when Dr. Southworth's URATABS brought me quick relief. URATABS are truly wonderful, and I give them full praise."

Such amazing evidence serves as convincing proof of the power of URATABS to relieve those distressing ailments so often a handicap to those in middle life.

Overworked, sluggish kidneys, bladder weakness and prostate gland trouble bring on so many distressing ailments which so often lead to serious diseases that every sufferer from lameness, pains in back and down the groin, scanty but frequent urination, "getting-up-nights," nervous irritability and lack of force—should try the amazing value of Dr. Southworth's URATABS at once! Any good druggist will supply you on a guarantee of satisfaction or money back.
